I have a research project that involves trading of municipal bonds issued by public schools. My basic idea is that the availability of archived board meeting videos would encourage increased trading of school bonds on the secondary market. In order to study this, I need the first date at which school districts made recorded videos available to the public to view. I am not sure if this would be an easy question to answer for you, but if you were able to provide me with the date during which videos were available for your district, it would greatly help me in completing my study.		0.00	0.00
