

Board Report 1/10/2022

The snowplow and sander worked well.

The boiler lost another check valve, hoping to have parts Thursday 1/6/2022.

Doing maintenance on light and trying to keep pipes and busses thawed out.

Handicap bus is still not repaired, they said it should be done this month.

The state is coming to inspect the busses 1/12/2022

Any questions.
