Report only. No recommended action at this time. Action will be taken at the March 23rd school board meeting.

**DESCRIPTION:**

The BHM school counselors have engaged in the district Continuous Improvement Process (CIP) review tasks over the past two years in the RESEARCH and PILOT phases. They have been active in activities that have included:

- development of a program vision
- review of national ASCA standards and current programming
- exploration of resources to improve programming
- consensus-building to reach recommendation decisions

These CIP tasks have now culminated into the Curriculum Adoption Proposal (CAP) Report being presented to you for review at this time. The recommendations included here provide opportunities for program improvement that align with the goals of the national standards.

Upon completing the review process, the team is bringing forth recommendations for consideration within their CAP report.

Preliminary budget figures are listed below.
