

2022 National FFA Convention

Pana FFA

Day one, stop one-Fair Oaks Farm

At the farm we were able to view the growing of the pigs. From the piglets being born to the full grown ready to be shipped out.

Day one, stop two-Rodeo

The rodeo was a time for the chapter to bond and find a little about each of our personalities.

Day two, stop one-Opening session with Tamika Catchings-BOLD

Opening session was very informative. Tamika gave a definition speech on BOLD. She explained personal experiences and how to overcome the hard times.

Day two, stop two-Convention Center

What a small world

Okaw Valley

Taylorville

Mahomet

FFA chapters from all around the United states joined in for the same reason. The love of agriculture was known as soon as we entered the convention center. So far away from home yet, reunited with surrounding towns.

Day two, stop three-Proficiency awards

The second session was when awards were handed out and final farewell speeches were given. Throughout the speeches the emotions were high due to how much of a family the national officer team has become.

Day two, stop four-Team bonding

Chapter bonding. After having a chapter dinner we went back and had an unplugged game night. Meaning all electronics were put away to really get to know each other through cards games.

Day three, stop one-Indianapolis Speedway

We learned the history of the speedway and were able to view some of the cars used in the past races.

Day three, stop two-Ozark Fisheries

At the fishery we were able to see the sizes of the fish grow as we moved from container to container. Also we were introduced to the shipping process of how the fish are moved to businesses to sale. The tour was a hands on tour and the chapter was able to handle some of the fish, crawdads and bullfrog tadpoles.
