Re: Transportation Schedule

I would like to request adding an agenda item to the November 6, 2017 Committee of the Whole meeting to discuss the change in student start and end times for the District's Upper Elementary Schools. These changes, as discussed at the October 23, 2017 Study Session, are an effort to spread the times between the Upper Elementary and Lower Elementary student days more evenly in order to support better transportation time schedule between those routes. It is anticipated this will positively impact arrival and dismissal times for students at our K-4 schools.

Thank you.
