

### *Superintendent Report:*

- ❖ Indoor Air Quality (IAQ) Project
  - The School Board voted in December to add the two air handlers and EUV back into the project for next summer. This change will not add any additional property taxes to our property owners as we will be using LTFM reserves, Debt service funds, and MELA funds.
  - Planning for next summer's project has begun. Reviewing work that will be accomplished in classrooms, as well as other areas of the High School is being reviewed. Work is also being done to determine what needs to be moved prior to next summer and where it can be located during the remodeling phase.
- ❖ Planning for next school year
  - Resolution directing administration to make recommendations for reduction in programs and positions and reasons therefore. This resolution is an annual motion for the board to direct administration to plan for next school year with appropriate staff sizing.
  - The school district cabinet members, including directors and principals, are starting their work for next school year's budget, including probable expenses to include.
- ❖ Finance committee.
  - The finance committee will be called upon in the coming weeks to meet to review potential expenses for the next school year. This includes facility maintenance, updates for technology, curriculum, programming, etc.
- ❖ Minnesota Paraprofessional Recognition Week
  - I'd like to personally thank all of our Educational Assistants (paraprofessionals) who devote their time and energy to helping our students every day.
