

**School Board Meeting:**

**December 14, 2015**

**Subject:**

Career & Technical Education  
(CTE) Curriculum Adoption  
Proposal (CAP) Report

**Presenters:**

**Pam Miller and  
CTE Teacher Representatives**

---

**SUGGESTED SCHOOL BOARD ACTION:**

Report only. No recommended action at this time. Action will be taken at the April 25, 2016 school board meeting.

**DESCRIPTION:**

The Career & Technical Education (CTE) staff have engaged in the district Continuous Improvement Process (CIP) review tasks over the past two years in the RESEARCH and PILOT phases. They have been active in activities that have included:

- development of a program goal to guide the selection of resources and to formulate the vision for instructional delivery
- review of national standards
- investigation of technology tools to enhance student learning
- discussions of preferred resources and development of resource scenarios
- consensus-building to reach recommendation decisions

These CIP tasks have now culminated into the Career & Technical Education (CTE) Curriculum Adoption Proposal (CAP) Report being presented to you for review at this time. The recommendations included here provide excellent student opportunities that align with the goals of the national standards, as well as the local identified improvement process goals for each department.

This review process has allowed an opportunity for our World Languages teachers to reflect upon the future learning experiences desired for BHM students.

Upon completing the review process, the team is bringing forth recommendations for consideration within their CAP report. With these needs and desired goals, of course, comes a significant commitment of purchase for instructional resources in order to meet these needs and goals.

Preliminary budget figures are listed below. Administrators are determining which

requests will be approved through the district curriculum budget and which of those are more appropriate through other budget resources. A more precise budget for approval through the Curriculum Adoption Proposal will be presented at the April 25<sup>th</sup> board meeting once we have additional information for some of these resource requests.

<u>Program</u>	<u>Budget Request</u>
Ag	\$ 11,100
Business & Computer Technologies	\$ 67,353
FACS	\$ 103,531
Tech Ed	\$ 80,688
BCMS Technology	\$ 25,800
Total	\$ 288,472

The CTE CAP Report was presented to the District Teaching & Learning Council on April 7, 2016, and the Community Teaching & Learning Councils on April 8, 2016. Teachers representing each level will be presenting this information at Monday's board workshop and we will be available to respond to any questions you may have about the process or the resources within the recommendation.
