

Board Report for Assistant Superintendent

March 2026

Strategic Plan Focus Areas

Engagement

- We will schedule a district planning and scheduling meeting for facility use. Sarah Bentley and I will facilitate this meeting to ensure our internal and external partners can set the schedule for next year. We will prep for this meeting before spring break and hold the meeting in April.
- We continue to work with a steering committee to work on the Fine Arts Collaborative (FAC) in Chelsea. This is the work around for the dissolved *Chelsea Center for the Arts*. Sarah Bentley is leading the charge on planning and rebuilding our groups. Our pillars of work revolve around Theater, Visual Arts, Music, and Dance. We are extremely excited about where we will go. Sarah, and her Community Education team, are already offering some classes with more to come.

Portrait of a Graduate

- We continue planning for next year and years beyond related to staffing. While it is difficult to predict years out, we can set plans into play to be protective of the growing needs of the district.

Health and Safety

- Greg continues to work on the Emergency Operation Plans (EOP) as they apply to the district. These plans will be presented for approval to the BOE in fall. These also are being updated to support each building and department.
- We are reviewing our current plans to support staff via our Employee Assistance Plan (EAP). These plans are in place to support our staff through professional and personal issues.

Respectfully Submitted,
Marcus Kaemming
