RE: Renewed and Revised CISD District of Innovation Plan

Background:

As presented to the CISD Board of Trustees in July, the district intends to present a renewed and revised local innovation plan at the October 25, 2021 school board meeting.

Many sections of our 2016 local innovation plan have been renewed. Additional exemptions have been requested to align with our current practice or to meet the needs in our current reality.

As required by the Commissioner's guidelines regarding local innovation plans, CISD's draft plan has been posted to the website for more than 30 days as of October 25, 2021.

Beginning this school year, the Board of Trustees can expect yearly updates regarding our innovation plan.

Recommendation:

The CISD Administration and District of Innovation DEIC Subcommittee recommends the CISD Board of Trustees adopt the renewed and revised Local Innovation Plan as presented.
