

## ALEDO ISD BOARD MEETING TEMPLATE

**MEETING DATE:** April 18, 2016

**AGENDA ITEM:** Consider Approval of Final Design and Exterior Elevation for Elementary School No. 5

**PRESENTER:** Earl Husfeld

**ALIGNS TO BOARD GOAL(S):** Financial/Facilities – The District shall exhibit excellence in financial and facility planning, management, and stewardship.

**BACKGROUND INFORMATION:**

- The Elementary School No. 5 Project was included within the new construction component of the District's successful 2015 Bond Election.

**ADMINISTRATIVE CONSIDERATIONS:**

- After the Board of Trustees selected the site for Elementary School No. 5 in February, VLK Architects (VLK) and district staff quickly began the process of site plan development.
- It was soon determined the McCall Elementary prototype was not a viable option for the Walsh site. Rather than starting the building design from "scratch", District staff asked VLK if they had elementary school buildings in their portfolio of work that could be adapted for the Walsh site. VLK determined they had at least two that would be suitable.
- VLK and district staff toured these two campuses to determine if either of these buildings would meet the District's instructional goals for our campus building. Both buildings were impressive, but one was determined to better fit the District's goals.
- With this starting point in early March, many planning and design meetings have been held with district staff to finalize the design and exterior elevation shown on the following pages.
- The final design and exterior elevation being presented to you tonight were reviewed, discussed, and ratified by the Bond Advisory Committee on April 12<sup>th</sup>.
- Leesa Vardeman and Ross Rivers, with VLK, will present the final design and exterior elevation to you this evening and answer any questions you may have.

**FISCAL NOTE:**

There is no fiscal impact with approval of this item. The financial impact will arise when the Board of Trustees approve a contract for the construction of this project.

**ADMINISTRATIVE RECOMMENDATION:**

The Administration recommends the Board of Trustees approve the final design and exterior elevation for Elementary School No. 5 as presented.
