Accountability Domains

Student Achievement

Evaluates performance across all subjects for all students, on both general and alternate assessments; College, Career, and Military Readiness indicators; and graduation rates.
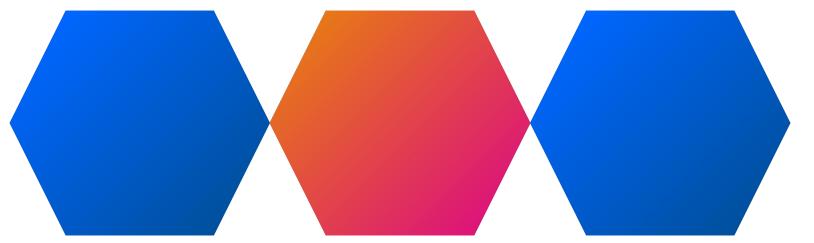

School Progress

Measures district and campus outcomes in two areas: the students that grew at least one year academically as measured by STAAR results and the achievement of all students relative to districts or campuses with similar economically disadvantaged percentages.

Closing the Gaps

Uses disaggregated data to determine differentials among racial/ethnic groups, socioeconomic backgrounds and other factors. The indicators included in this domain, as well as the domain's construction, align the state accountability system with ESSA.
