

From the Desk
of
Robert Hernandez, Athletic Director

Spring sports are coming to a close. OHS Girls' Golf Team competed in district and earned 2nd place; they will be traveling to regionals to be held in Midland.

The tennis teams fared well also. The boys are district champs, and the girls' team will be sending some girls to regionals in Odessa. Coach Justiss can't remember the last time when OHS had a tennis team competing in regionals in this sport, so we are excited to have these young people do so well.

District track meet will hold their district meet in Crane on Thursday. We expect our athletes to excel in their events.

Baseball and softball is still underway. These athletes are giving it their all, and are still not completely out of the district race.

Our search for a basketball coach has offered the opportunity to receive 53 applications, which have been narrowed down to 6. We expect to make a selection and announcement within the next week or two.

Our middle school athletes have also had a busy spring. The track team competed in their district meet in Presidio last Saturday. We want to commend Presidio ISD for an event that was run smoothly, efficiently, and in a very timely manner. All events were over by 5:00 P.M. It was a positive experience for our young athletes.

With the exception of tennis, all middle school spring sports have now concluded. Their tennis team will have their last match the 1st week of May.

Our coaching staff and students have done an outstanding job in all spring sports. We look forward to continue seeing our athletes as they go on to represent our school in regional competition.
