

Site Report – LAKE – September 2025

To: Superintendent Kasie Luke
and LPSD School Board Members

From: Melody Schilke: Principal

Photos & Description of Activities and Events

Cross Country was a little hard work mixed in with fun as the kids raced their hearts out. These connections are so important for students and they gave it their all.

Personnel Update

Preschool/Secretary/Classroom Aide: Nina Garner

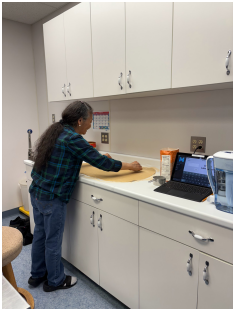

K-5 Sally Spellman K-5 with 14 students(our numbers are growing!)

6-12: Diana Hejtmanek

Custodian: Myra Constantine: Substitute Custodian along with Natalie Lind our primary custodian who is moving to PTH

Temp Maintenance: Clinton Boskofsky

Cook: Inez O'Domin

Inez serves everyone's favorite: Pizza!

Night Gym Aide: Tonisha O'Domin: Welcome Aboard

PE Aide: Ethan Andrews: Welcome Aboard

Classroom Highlights

Students are learning everyday in the elementary and upper level classroom. They are working on a Social Studies project with the focus on Native Americans throughout North America. The elementary classroom is working on many get to know you projects and have settled in with Ms. Sally and of course Ms. Nina, they are already excelling in reading, writing, and math. Testing is also finished! Yay!

LSAC Activity

We have been unable to have a meeting and are hoping for one soon.

Community Engagement

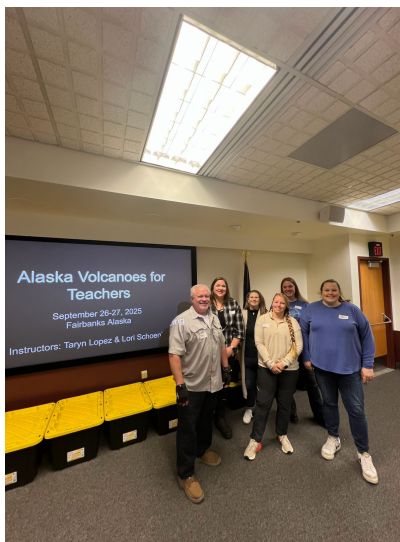

The village and school had a pot luck to celebrate the Migratory Bird Calendar Winners and Participants, as well as students who lettered in sports for the first time, and Lego Robotics for the Lake won the overall

championship and the best robot. Way to go Chignik Lake! Awards may come in late but that doesn't mean we can't celebrate!

Professional Development

The teachers gleaned much needed information about best practices and how to help students succeed. These professional development days are crucial to student and teacher success. The secondary teachers from a few of the sites went to Fairbanks to study a unit about Mt. Veniaminof in Perryville, allowing students to teach highly relevant and engaging real world lessons in Science.

Pupil % Attendance K-12

76% attendance

Student and Staff Safety

We have asked parents to partner together to provide rides to families who may not have transportation in the dark, because there has been a bear in the village breaking into houses.
