ACCOMPLISHMENT

Please be specific and provide a full description of the accomplishment. Include the name of the competition, conference, or award if applicable.

These students are the student council officers for the WC Petty student council 24/25 school year. They applied to be in the student council and obtained teacher recommendations. Once in student council they applied for the officer position and took time to write and support why they would be a good fit for the role they are in. These students go above and beyond to help the student council run successfully and have taken the challenge to really grow and develop their leadership skills. They plan meetings ahead of time with Mrs. Drake and myself. They run committees, support peers, call the meeting to order, take attendance, run the meeting, and close the meeting. They have even been part of setting up and implementing service projects. They partake on calls with community members and draft emails to school personnel. They always have a growth mindset and are willing to take on a new task or challenge.
