

To whom it may concern;

Recently we have received an offer to sell off various pieces of equipment that we no longer use within the PE department and weight room. These are older pieces of equipment that have been otherwise left in storage.

The following is a list of equipment that we are currently shopping around:

- Any extra metal plates that are left in the shed
- Any extra DB's that are left in the shed
- Any extra bars (primarily under the racks at Central)
- Hammer Strength Row Machines

Recently we have been approached by an aspiring gym owner who is interested in our miscellaneous gym equipment.

Currently, I have an offer of \$ 1,000 cash.

If we wanted to sell everything piece by piece, we could probably make a few more bucks, but this isn't too bad considering some of our plates and DB's might be missing.

For Reference, when Coal City sold all of their equipment for when they re-did their weight room. They sold 11 racks, hundreds of plates, a full 5-100 DB set, 8 cable machines, and a Hammer Strength machine for right around \$2,500.

Please let me know if there are any further questions or concerns.

Matt Smith
PE/HE/DE Department Chair
