

Beeville ISD
BOARD OF TRUSTEES

Date: October 19, 2017 Presented By: Dr. Puig

Subject: Organizational Chart Related Page(s) 1

Information

BACKGROUND INFORMATION:

As identified in the TASBO study completed last spring, the previous BISS organizational chart was in need of major restructuring. A key recommendation from TASBO was to design a new organizational structure aimed specifically at supporting and executing the newly adopted strategic plan.

The attached organizational structure has been put in place; note, it is designed to focus on the execution of core business functions as opposed to job titles. In so doing, the district now owns a more efficient and effective structure to match chosen strategies within each core function, allowing the district to better scale student improvement efforts.

RECOMMENDATION:
