

## **GOOD MEDICINE PROGRAM REPORT** for July 2017:

The Youth Mental Health First Aid training on May 30-31, 2017, was cancelled due to low turnout. The next scheduled training will be August, 2017, located at the Browning Public School. We have a total of 71 individuals who completed since October 2016. Our target goal for the grant year is 125.

The Good Medicine Program completed their reporting for the months of February 2017 to May 2017 for the grant. We will be ending the third grant year in September 2017.

Staff members are continuing to be involved in coalitions and team meetings throughout the summer.

The GMP staff members are recruiting students for various programs going on in the month of June and August.

The Good Medicine Program staff and Tamarack Grief Center will facilitate a Grief Camp on June 27-28, 2017 and one in August 9-11, 2017.

The GMP budget has sent 30+ individuals to the Montana Behavior Initiative in Bozeman, Montana.

We will be planning for a cultural week camp in August, 2017. We will invite cultural mentors to come in and share their talents with a group of children.
