

INFORMATION REPORT

Follow Up Information on September Board Meeting Agenda Item – 2024-09-9 Wylie Campus CTE CMAR

At the September 24, 2024 Board meeting, the Board of Trustees discussed the report out of the Campus Facilities and Construction Committee meeting that occurred on September 17, 2024. The item discussed related to consideration of approval to negotiate and execute a contract with Skanska USA Building for pre-construction services for the new Career and Technical Education (CTE) building to be located at the Wylie Campus. The agenda item included a recommendation to approve a budget amendment not to exceed \$75,000. The consideration of the budget amendment was not needed because the Board of Trustees had previously approved the overall Phase I Master/Strategic Plan project budget at the August 2 Board meeting. The agenda item at the August 2 Board meeting was 2024-01-1-3 Phase I Project Cost Funding.
