  - A. Concerns of newly labeled District parking spaces.
    1. To summarize the comments and discussion shared by Tony L, Lucette L, Terri K, Amanda B and others present our thoughts are as follows
      - a) Concerns have arisen regarding the newly designated parking spaces for District employees, as they suggest a prioritization over others. We are particularly worried about the posted hours and the reserved spaces. We strongly encourage the Administration to relocate these spaces from the main school parking lot to better accommodate parents dropping off and picking up their children. Additionally, it has come to our attention that District staff did not ask for these reserved spaces. Another issue is the parking near the end of the secondary wing by the greenhouse; larger trucks take up space that makes it challenging for buses and other large vehicles to navigate through. We propose that the spaces near the kayak storage be designated for smaller vehicles like side-by-sides or four-wheelers, often used by some students. Furthermore, we urge the Administration to consider shifting staff reserved spaces to the street parking alongside the gym or to the far end of the lot, thus keeping the front spaces available for those who need to come and go frequently. Another parking issue is the space to the right of the currently posted Finance parking space—often during pickup in the afternoon, people park where there is no space, causing congestion in the parking lot as people try to leave. We recommend that this area be labeled "No Parking."
      - b) This will be flagged for Administration to review the ASC thoughts on the matter.
