INFORMATION REGARDING BALANCE ON WHICH FINANCE CHARGE IS COMPUTED

We figure the FINANCE CHARGE on your account by multiplying the daily balance of your account, including current transactions, by the daily periodic rate each day during the billing cycle. This gives us a daily finance charge. Then we add together each daily finance charge to derive a total FINANCE CHARGE for the billing cycle. To get the daily balance on which each daily finance charge is computed, we take the beginning balance of your account each day, add any new advances and subtract any payments or credits. If your Credit Line account is a variable rate plan, the periodic rate may

*Note: If the statement closing date falls on a Friday or on any business day immediately prior to a non-business day, the number of days in the billing cycle will include the subsequent number of non-business days until the next business day, and the finance charge will continue to accrue. However, the number of days in the next billing cycle will not include days included in the prior cycle.
