

## Site Report – LAK – April 2025

To: Superintendent Kasie Luke  
and LPSD School Board Members

From: Melody Schilke, Principal

### Photos & Description of Activities and Events

The elementary students used Earth Day to help clean up the community and take a little loving care of our Mother Earth.

### Personnel Update

Diana Hejtmanek: Secondary Teacher

Sonya Shelley: Elementary Teacher/Night Gym

Nina Garner: Secretary, Classroom Aide, Preschool Aide

Natalie Lind: Custodian

Clinton Boskofsky: Temporary Maintenance

### Classroom Highlights

The Secondary Classroom is working on wrapping up the school year with End of Levels and are pushing diligently to be ready to conquer next school year. The elementary room is almost completed with all their end of level testing and amplify testing. We had two of our third graders make wonderful progress and now are reading on grade level with the other two 3rd graders almost right where they need to be. They have made exciting growth. In this picture, which is quite common, our older students are helping the younger elementary students with their writing and learning. It takes a team to get things done.

## LSAC Activity

LSAC is working diligently to bring in the rest of the year to a successful finish, while looking ahead to what we can do for our students next year. Our members are Marty Takak: President, Miranda Lind: Vice President, Natalie Lind: Secretary, Nina Garner: Member, and Mary Isaac: Member.

## Community Engagement

BBNC came to the village and did the annual Color Fun Run. Our student teacher Conner Cook took part as well. The students and adults had a great time connecting. Thank for this partnership of these volunteers who come to the community to help spread the word about health and wellness and teaching it can be fun at the same time.

## Professional Development

Staff has learned a lot from the district mandated professional developments and are looking forward to try and incorporate more place based learning.

## Pupil % Attendance K-12

Attendance for the Lake was 83%

## Student and Staff Safety

Just making sure students are Bear Aware. The bears have started to wake up.

## Other

Our hoodie design has been a huge success with the student government and Chignik Lake happens to have some of the most beautiful sunrises seen right from the school!
