

AGENDA

ITEM

Subject: Approve purchase of a bus for the 2019-2020 school year.

Rationale: During the budget and planning process, it was discussed with the Board the need for an additional bus due to the amount of repair that is needed for one of the buses currently in the fleet. Mr. Nors will go out for bids but we expect to receive quotes similar to the ones that we received last year for approximately \$94,000. The bus will include air conditioning and three seatbelts to a seat. Additionally, as diesel bus engines still have a history of experiencing problems, it is recommended to purchase a gas powered vehicle.

Recommendation: Approve the purchase of a bus for the 2019-2020 school year not to exceed the price of \$100,000.
