## Critical Need Position Designation Form

Reemployment of a retired public employee pursuant to NRS 286.523 is limited to positions of extreme need. An employer who desires to employ a retired public employee to fill a position for which there is a critical labor shortage must make the determination of reemployment based upon appropriate and necessary delivery of services to the public. The critical need designation must be made by the designating authority of the agency in an open meeting. The designated authority shall not designate a position for more than 2 years. To be redesignated, the designating authority must consider and make new findings in an open public meeting as to whether the position continues to meet the criteria established by law. PERS will compile the forms received from each designating authority and provide a biennial report to the Interim Retirement and Benefits Committee (IRBC) of the Legislature.
