Communications with the Public

Parent Involvement

Considerable experience and related evidence indicates that meaningful involvement of parents, guardians, and other care-givers in the schooling of children improves the quality of education significantly. The District believes that closer connections of parents and others responsible for the home care of the children with our schools can result in enhanced academic performance, improved behavior, and reduced absenteeism.

Therefore, all parents, guardians, and care-givers of students enrolled in our school district are encouraged to take an active role in the education of their children.

Further, the District believes that the professional staff must take whatever steps are necessary to facilitate a broad variety of opportunities for parents to connect frequently with the schools in which their children are enrolled, and with the overall system. These steps should include the following:

- Parenting skills should be promoted and supported.
- Communication between home and school is regular, two-way, and meaningful. (Such communication may include monthly newsletters, electronic communications, required regular contact with all parents, two required flexible parent-teacher conferences for each school year and drop in hours for parents, home visits and use of technology, including but not limited to, homework hotlines.
- Parents should play an integral role in assisting student learning.
- Parents should be welcome in every school and their support and assistance sought.
- Parents input should be sought regarding decisions that affect children and families.
- Community resources should be made available to strengthen school programs, family practices and student learning.
- The two required parent-teacher conferences per year, beginning July 1, 2021 and each school year thereafter, can be fulfilled by the District offering parents the option of attending any parent-teacher conference by the use of telephonic, video, or other conferencing platforms.
- An additional parent-teacher conference, in addition to the two required conferences shall be conducted during periods when the District provides remote learning for more than three consecutive weeks and one additional parent-teacher conference every six months thereafter for the duration of such period of remote learning.

Policy
1110.1 (b)

The District will request from the parent/guardian of each student the name and contact information of an emergency contact person who may be contacted if the student's parent/guardian cannot be reached to schedule a parent-teacher conference required when the District is providing remote learning for a period of three consecutive weeks or more.

In situations in which the teacher is unable to contact a student's parent/guardian after three attempts to schedule the required parent-teacher conference during a period of remote learning provided by the District for three consecutive weeks or more, such teacher is directed to report such inability to the principal, school counselor, or other school administrator designated by the District. Such principal, counselor, or administrator is to contact the student's emergency contact to determine the student and family's health and safety.

The District shall utilize the document developed by the State Department of Education (by 12/1/21) that provides information concerning education, safety, mental health and food insecurity resources and programs available to students and their families.

The Superintendent will report to the Board of Education annually on parent involvement opportunities.
