

Dear Current Board members,

I am Chad DeVoe and this is my letter of application to fill the open school board position. I believe in public education. I believe in Chanute schools. My experience is somewhat unique for this area, and I believe I can contribute in this position.

I did not go to school here and have a perspective of a different time and method of education. My children did go to school here and I was happy with the education they received. As a teacher at the community college, I had the opportunity to see how recent graduates perform.

I think the teachers and administrators in the Chanute schools want what's best for our students. I would like to help them succeed.

Sincerely,

Chad DeVoe
