

Guldmann™

December 8th, 2025

To whom it may concern:

This letter is to confirm that Guldmann lifting systems, including all ceiling hoist trolleys and related components, are proprietary products designed and manufactured exclusively by Guldmann.

The trolleys and associated drive units, motors, and system components are not available through third-party manufacturers or general distributors. All such components are engineered specifically for compatibility with Guldmann rail systems and are sold solely through Guldmann or authorized Guldmann partners.

Due to the proprietary nature of these systems, the use of genuine Guldmann components is required to ensure correct functionality, safety compliance, and system certification.

Should you require additional documentation, technical specifications, or confirmation for regulatory or review purposes, we would be pleased to provide it.

Best regards
Guldmann Inc.
