

## Executive Summary Facilities Committee Meeting

DATE: April 24, 2018  
TOPIC: Results of Electric Services Request for Proposal (RFP)  
PREPARED BY: Bob Ciserella

.....

### Recommended Action:

Action:     X    

Discussion:           

Information:           

### Purpose:

The Board of Education approves all contracts of the District.

### Fiscal Impact:

On April 6, 2018, the District received five Requests for Proposal (RFP) from vendors for electric services. Attached please find the spreadsheet providing the results of the RFP and the Bidder Evaluation Matrix. The lowest bidder is Engye Resources LLC with a Fixed Energy Price of \$0.02890 and total electric energy costs of \$0.06503 per kW for a two-year agreement.

All quotes for energy providers are for the day the bid closes. These rates are subject to change and will not be locked into until the morning after Board approval. Pricing does not typically change dramatically from bid date until closing.

The bid documents were reviewed and revised per attorney recommendation. The vendor contract is currently with District legal counsel for review.

The Administration will provide Constellation Energy with the required 30-day cancellation notice.

### Recommendation:

The Administration requests that the Facilities Committee support the recommendation to enter into an agreement with Engye Resources LLC for electric services.
