Athletics Report

January 2014

We are knee deep in basketball. All of our basketball teams are in the middle of the schedules and we have done very well. The High School teams are all now into District play. We have played most of our first round of District and the girls are in sole first place. There only defeat came at Axtell in over time. The girls were able to avenge that lose by beating them at home this past week. The boys are much improved. They got their first district win in two year last week against Bremond and led most of the game against a very good Bosqueville team before letting it slip in the final period of play.

Offseason is going well and the athletes are starting to get into the routine of weights and agility drills. Our schedule has been thrown off this week because of bench mark testing but it should not be to bad.

Tood Breeze came out this week and repaired areas of the track that had been scuffed during the field construction. He is also setting up a time for the first of the two yearly deep cleanings of the turf.

We have had a number of colleges that have stopped by to talk to our athletes and have expressed interest in them coming to their institution. We also have many of our athletes that have gone to campuses to get a better understanding of the college life. This is in part to Mr. Hubbard setting up college visits for our seniors. Many of our athletes will be taking the SAT again on February 6th to try and raise some of their test scores.

That should do it for now....

WIN STATE!!!

Robert Little – Chilton Athletic Director and Head Football Coach.
