

CTE Update 7/19/2018

NO PROGRAM UPDATES THIS MONTH

GENERAL UPDATES

MI-STEM Regional Network

- On June 26, Jonathan and Ronna met with other superintendents and instructional leaders from our region to continue the design and development of the future of the MI-STEM work in our county and across our region. We recognize that the process of creating STEM-equipped educators and students requires the active involvement and purposeful collaboration of the business, industry, government, and education sectors. Regional strategic planning efforts are forthcoming, which will lead to the formation of a shared vision within our region for partnership and strategy which will create a STEM culture, empower STEM teachers, integrate business and education, and ensure high quality STEM experiences for students. The MI-Stem structure replaces the previous math /science center regional structure. The posting for the Region 2 Director position is now active through WISD, who will be functioning as the fiscal, however regional representatives will be actively involved in the hiring process.

Vision from MiSTEM Network Planning -- State Document:
