EdLeader21 is the nation’s first professional learning community dedicated to helping district leaders focus their work on the integration of the 4Cs (critical thinking, communication, collaboration and creativity) into education. This year’s annual event will pay special focus to the exciting new project, Profile of a Graduate (POG) which seeks to energize communities of educators, students and parents around a 21st century definition of student success. Through the POG project, EdLeader21 is able to provide schools and districts with the tools and resources needed to support in the development and implementation of the POG.

This conference will provide important information for us as we prepare to define the profile of the 21st century graduate, and to evaluate where we are as a district in our efforts to achieve this vision for every Amphitheater School District student. This work will also prepare us for our future AdvancED accreditation evaluation and Superintendent Jaeger’s strategic plan.
