Morrow County School District Student Internet Acceptable Use Policy

~~Please read this document carefully before signing.~~

~~Internet access is available to all students and teachers in Morrow County School District.~~

~~We are very pleased to bring this access to Morrow County School District and believe the Internet offers vast, diverse and unique resources to both students and teachers. Our goal in providing this service to teachers and students is to promote educational excellence in schools by facilitating resource sharing, innovation and communication.~~

~~The Internet is an electronic highway connecting thousands of computers all over the world and millions of individual subscribers. Students and teachers have access to:~~

- ~~1. Electronic mail communication with people all over the world;~~
- ~~2. Information and news from NASA as well as the opportunity to correspond with scientists at NASA and other research institutions;~~
- ~~3. Public domain software and shareware of all types;~~
- ~~4. Discussion groups on a plethora of topics ranging from Chinese culture to the environment to music to politics;~~
- ~~5. Access to many university library catalogs, the Library of Congress and ERIC.~~

~~With access to computers and people all over the world comes the availability of material that may not be considered to be of educational value in the context of the school setting. Morrow County School District has taken precautions to restrict access to controversial materials. However, on a global network it is impossible to control all materials, and an industrious user may discover controversial information. We (Morrow County School District) firmly believe that the valuable information and interaction available on this worldwide network far outweighs the possibility that users may procure material that is not consistent with the educational goals of the district.~~

~~Internet access is coordinated through a complex association of government agencies, as well as regional and state networks. In addition, the smooth operation of the network relies upon the proper conduct of the end users who must adhere to strict guidelines. These guidelines are provided here so that you are aware of the responsibilities you are about to acquire. In general, this requires efficient, ethical and legal utilization of the network resources. If a Morrow County School District user violates any of these provisions, his/her account will be terminated and future access could possibly be denied. The signature(s) at the end of this~~
