The budget presentation focused on the Idaho State component of the FY2026 Budget. The most prominent topics for the first hour were the necessary expenditure for staffing; the maximum FTE provided for by the State; the discrepancy between the State career ladder and the District's Salary Schedule; the small offset of federally funded employees; and discussions regarding 33-1003(2)(d).

Plans were discussed to list the unfunded mandates which the District must abide by.
