

11/18/2024

Dear Weber School District Representatives,

I am writing to nominate Rod Wayment for the Extra Mile Award. His dedication to our school community exemplifies the qualities we cherish and strive to uphold.

Rod consistently goes above and beyond in his role, providing invaluable support to both faculty and students. His readiness to assist teachers with classroom needs has made a significant impact on our learning environment. Whether it's setting up for events or ensuring classrooms are in pristine condition, his reliability and punctuality are unmatched. He not only understands his responsibilities, but he also completes what is asked from him with a positive and uplifting attitude.

As a vital member of our school safety team, Rod plays an instrumental role in maintaining a secure atmosphere. His calm and composed demeanor when handling situations involving student safety, such as elopement or aggression, reflects his deep commitment and care for our students' well-being.

Moreover, Rod leads his custodial staff with respect and empathy, fostering a supportive and inclusive work culture. His leadership ensures that every team member feels valued and motivated. His patience he shows with not only guiding staff, but his ability to model proper procedures gives his custodial staff the example to fall back on when doing their assigned tasks. Because he is not afraid to work hand in hand with others, his team respects his leadership and follows through on what is asked of them.

Rod's unwavering commitment to our school community makes him a deserving candidate for the Extra Mile Award. We are grateful for his tireless efforts and the positive impact he has on everyone around him.

Thank you for considering this nomination.

Sincerely,

Scott Fronk  
School Administrator
