****Grant Administration per Auditors SLK****

County of Alpena does not have a centralized grants department; therefore, it is the responsibility of each department obtaining a grant to care for and be familiar with all grant documents and requirements. If a grant is Federal, the department should immediately notify the **County Treasurer** for inclusion in the County's Single Audit. For the purpose of this policy "Program Director" applies to the individual within a given department who will be responsible for the grant.

1. Grant Development, Application, and Approval –

- a. Legislative Approval - The point at which legislative approval is required is determined by the requirements of the grant program. If the grant must be submitted by "an individual authorized by the legislative body", then Board approval is required prior to submitting the application. If such legislative approval is not specifically required by the written terms of the grant, then the department head may, at his or her discretion, approve grant applications. In this case, a copy of the application shall be sent to the **Commissioner's** office. If an award is given, a copy of the agreement shall also be furnished to the **Commissioner's** office. Electronic copies are preferable.
- b. Matching Funds - Grants that require cash local matches must be coordinated through **the Finance Committee**. At a minimum, funds must be identified within the existing budget to provide the match, or a budget adjustment will be required. Depending on the nature of the grant, there may also be some policy implications that will bear discussion. (For example, will the grant establish a level of service that cannot be sustained once the grant funds are depleted?)
- c. Grant Budgets - Most grants require the submission of an expenditure budget. The department head should review this portion of the grant request prior to submission. The **Clerks Office** will need to be contacted regarding personnel projections.

2. Grant Program Implementation-

- a. Notification and Acceptance of an Award - Official notification of a grant award is typically sent by a funding agency to the program director and/or other official designated in the original grant proposal. However, the authorization to actually spend grant funds is derived from the Board through the approval of

a grant budget. This is done with the adoption of the Government-wide operating budget, as the grant budget is a component of such.

- b. Establishment of Accounts - The department that obtained the grant will provide the **County Treasurer** with information needed to establish revenue and expense accounts for the project. Ordinarily, this information will include a copy of the summary of the project and a copy of the full project budget.
- c. Purchasing Guidelines - All other Government purchasing and procurement guidelines apply to the expenditure of grant funds. The use of grant funds does not exempt any purchase from normal purchasing requirements. All typical paperwork and bidding requirements apply. All normal staff approvals apply. When in doubt, the Program Director should contact the **Commissioner's** office for further assistance.

3. Financial and Budgetary Compliance –

- a. Monitoring Grant Funds - Departments may use some internal mechanism (such as a spreadsheet) to monitor grant revenues, expenditures and budgetary compliance, however all such financial information will also be maintained in the County's finance software at some level. The finance software is considered to be County of Alpena's "official" accounting system. Ultimately, the information in this system is what will be audited and used to report to governing boards, not information obtained from offline spreadsheets. Program Directors are strongly encouraged to use inquiries and reports generated directly from the finance software to aide in grant tracking. If any "off-system" accounting records are maintained, it is the responsibility of the Program Director to ensure that the program's internal records agree to the County's accounting system.
- b. Fiscal Years - Occasionally, the fiscal year for the granting agency will not coincide with the County's fiscal year. This may require adjustments to the internal budget accounts and interim financial reports as well as special handling during fiscal year-end close. It is the responsibility of the department head to oversee grant budgets within his/her department and to bring such discrepancies to the attention of the **County Treasurer** at the time the grant accounts are established.
- c. Grant Budgets - When the accounting structure for a grant is designed, it will include the budget that was prepared when the grant application was submitted. The terms of each

specific grant will dictate whether any budget transfers between budgeted line items will be permitted. In no case will the Program Director be authorized to exceed the total budget authority provided by the grant.

If grant funds have not been totally expended by fiscal year-end, it is the responsibility of the Program Director to notify the **Finance / Budget Committee** that budget funds need to be carried forward to the new fiscal year, and to confirm the amounts of such carry-forwards. This can be done during the County's normal annual budgeting process. Carry-forwards of grant funds will be subjected to maximum allowable amounts/percentages based on the grant award agreement and/or the Uniform Guidance compliance supplement.

- d. Capital Assets – The County of Alpena is responsible for maintaining an inventory of assets purchased with grant monies. The County is accountable for them and must make them physically available for inspection during any audit. The **Clerk and Commissioners Office** must be notified immediately of any sale of these assets.

Customarily, the proceeds of the sale can only be used on the grant program that purchased them. In most cases, specific governing regulations can be found in the original grant.

The individual department overseeing the grant will coordinate this requirement. All transactions that involve the acquisition or disposal of grant funded fixed assets must be immediately brought to the attention of the **Clerk and Commissioners Office**.

4. Record Keeping

- a. Audit Workpapers - The County's external auditors audit all grants at the end of each fiscal year. The department who obtained the grant will prepare the required audit workpapers. These will then need to be sent to the **County Treasurer** within a reasonable time following monthly / quarterly end.
- b. Record Keeping Requirements - Grant record keeping requirements may vary substantially from one granting agency to another. Consequently, a clear understanding of these grant requirements at the beginning of the grant process is vital. The Program Director within a department applying for a grant will maintain copies of all grant draw requests, and approved grant agreements (including budgets).

Uniform Guidance Compliance Supplement - General Information

Board Policies. The County financial policies that have been separately reviewed

and approved by the Board of Commissioners may be incorporated into this document by reference. All of the policies are applicable to Federal grants where appropriate.

ALLOWABILITY OF COST

Expenditures must be aligned with approved budgeted items. Any changes or variations from the state-approved budget and grant application need prior approval from the state.

When determining how the County will spend its grant funds, Program Manager will review the proposed cost to determine whether it is an allowable use of federal grant funds *before* obligating and spending those funds on the proposed good or service. All costs supported by federal funds must meet the standards outlined in 2 C.F.R. Part 3474 and 2 C.F.R. Part 200, Subpart E, which are provided in the bulleted list below. Program Managers must consider these factors when making an allowability determination. Additional helpful questions to ask when making allowability determinations are annexed within.

Be Necessary and Reasonable for the performance of the federal award.

County staff must consider these elements when determining the reasonableness of a cost. A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision to incur the cost was made. For example, reasonable means that sound business practices were followed, and purchases were comparable to market prices.

When determining reasonableness of a cost, consideration must be given to:

- Whether the cost is a type generally recognized as ordinary and necessary for the operation of the County or the proper and efficient performance of the federal award.
- The restraints or requirements imposed by factors, such as: sound business practices; arm's-length bargaining; federal, state and other laws and regulations; and terms and conditions of the federal award.
- Market prices for comparable goods or services for the geographic area.
- Whether the individuals concerned acted with prudence in the circumstances considering their responsibilities to the County, its employees, its students, the public at large, and the federal government.
- Whether the County significantly deviates from its established practices and policies regarding the incurrence of costs, which may unjustifiably increase the federal award 's cost. 2 C.F.R. §200.404

While 2 C.F.R. §200.404 does not provide specific descriptions of what

satisfies the "necessary" element beyond its inclusion in the reasonableness analysis above, necessary is determined based on the needs of the program. Specifically, the expenditure must be necessary to achieve an important program objective. A key aspect in determining whether a cost is necessary is whether the County can demonstrate that the cost addresses an existing need and can prove it.

When determining whether a cost is necessary, consideration may be given to:

- Whether the cost is needed for the proper and efficient performance of the grant program.
- Whether the cost is identified in the approved budget or application.
- Whether there is benefit associated with the cost.
- Whether the cost aligns with identified needs based on results and findings from a needs assessment.
- Whether the cost addresses program goals and objectives and is based on program data.

Allocable to the federal award. A cost is allocable to the federal award if the goods or services involved are chargeable or assignable to the federal award in accordance with the relative benefit received. This means that the federal grant program derived a benefit in proportion to the funds charged to the program. 2 C.F.R. §200.405. For example, if 50% of a **employee's** salary is paid with grant funds, then that employee must spend at least 50% of his or her time on the grant program.

Consistent with policies and procedures that apply uniformly to both federally- financed and other activities of the County.

Conform to any limitations or exclusions set forth as cost principles in Part 200 or in the terms and conditions of the federal award.

Consistent treatment. A cost cannot be assigned to a federal award as a direct cost if any other cost incurred for the same purpose in like circumstances has been assigned as an indirect cost under another award.

Adequately documented. All expenditures must be properly documented.

Be determined in accordance with general accepted accounting principles (GAAP), unless provided otherwise in Part 200.

Not included as a match or cost-share, unless the specific federal program authorizes federal costs to be treated as such. Some federal program statutes require the non-federal entity to contribute a certain amount of non-federal resources to be eligible for the federal program.

Be the net of all applicable credits. The term "applicable credits" refers to those receipts or reduction of expenditures that operate to offset or reduce

expense items allocable to the federal award. Typical examples of such transactions are: purchase discounts; rebates or allowances; recoveries or indemnities on losses; and adjustments of overpayments or erroneous charges. To the extent that such credits accruing to or received by the state relate to the federal award, they shall be credited to the federal award, either as a cost reduction or a cash refund, as appropriate. 2 C.F.R. §200.406.

Part 200's cost guidelines must be considered when federal grant funds are expended. As provided above, federal rules require State and County-level requirements and policies regarding expenditures to be followed as well. For example, State and/or County policies relating to travel or equipment may be narrower than the federal rules, and the stricter State and/or County policies must be followed. Further, certain types of incentives are allowable under federal law, but are not allowable under State law.

Selected Items of Cost

Part 200 examines the allowability of 55 specific cost items (commonly referred to as Selected Items of Cost) at 2 C.F.R. § 200.420-200.475. These cost items are listed in the chart below along with the citation where it is discussed whether the item is allowable. Please do not assume that an item is allowable because it is specifically listed in the regulation as it may be unallowable despite its inclusion in the selected items of cost section. The expenditure may be unallowable for a number of reasons, including: the express language of the regulation states the item is unallowable; the terms and conditions of the grant deem the item unallowable; or State/local restrictions dictate that the item is unallowable. The item may also be unallowable because it does not meet one of the cost principles, such as being reasonable because it is considered too expensive. If an item is unallowable for any of these reasons, federal funds cannot be used to purchase it.

County personnel responsible for spending federal grant funds and for determining allowability must be familiar with the Part 200 selected items of cost section. The County must follow these rules when charging these specific expenditures to a federal grant. When applicable, County staff must check costs against the selected items of cost requirements to ensure the cost is allowable. In addition, State, County and program-specific rules may deem a cost as unallowable and County personnel must follow those non-federal rules as well.

The selected item of cost addressed in Part 200 includes the following (in alphabetical order):

Likewise, it is possible for the State and/or County to put additional requirements on a specific item of cost. Under such circumstances, the stricter requirements must be met for a cost to be allowable. Accordingly, employees must consult federal, State and County requirements when spending federal funds. For example, often the State's travel rules are more restrictive than federal rules, which means the State's policies must be followed.

In order for a cost to be allowable, the expenditure must also be allowable under the applicable program statute, along with accompanying program regulations, non-regulatory guidance and grant award notifications.

The State and/or County rules related to some specific cost items are discussed below. County employees must be aware of these State and County rules and ensure they are complying with these requirements.

In addition to the cost principles and standards described above, Program Managers can refer to this section for a useful framework when performing an allowability analysis. In order to determine whether federal funds may be used to purchase a specific cost, it is helpful to ask the following questions:

- Is the proposed cost allowable under the relevant program?
- Is the proposed cost consistent with an approved program plan and budget?
- Is the proposed cost consistent with program specific fiscal rules?
 - For example, the County may be required to use federal funds only to supplement the amount of funds available from nonfederal (and possibly other federal) sources.
- Is the proposed cost consistent with specific conditions imposed on the grant (if applicable)?

As a practical matter, departments administering the funds should also consider whether the proposed cost is consistent with the underlying needs of the program. For example, program funds must benefit the appropriate target for which they are allocated.

Also, funds should be targeted to address areas of weakness, as necessary. To make this determination, departments administering the funds should review data when making purchases to ensure that federal funds to meet these areas of concern.

CASH MANAGEMENT

The County will comply with applicable methods and procedures for payment that minimize the time elapsing between the transfer of funds and disbursement by the County, in accordance with the Cash Management Improvement Act at 31 CFR Part 205. Generally, the County receives payment from the Grantor on a reimbursement basis. 2 C.F.R. § 200.305. However, if the County receives an advance in federal grant funds, the County will remit interest earned on the advanced payment quarterly to the federal agency consistent with 2 C.F.R. § 200.305(b)(9).

Payment Methods

Reimbursements: The County will initially charge federal grant expenditures to nonfederal funds.

The County [**Grant Program Director**] will request reimbursement for actual expenditures incurred under the federal grants as noted in the grant agreement. All reimbursements are based on actual disbursements, not on obligations.

Consistent with state and federal requirements, the County will maintain source documentation supporting the federal expenditures (invoices, time sheets, payroll stubs, etc.) and will make such documentation available for review upon request. Reimbursements of actual expenditures do not require interest calculations.

Advances: To the extent the County receives advance payments of federal grant funds, the County will strive to expend the federal funds on allowable expenditures as expeditiously as possible. Specifically, the County attempts to expend all drawn downs of federal funds within 72 hours of receipt.

The County will hold federal advance payments in interest-bearing accounts, unless an allowable exception applies. The County will begin to calculate interest earned on cash balances once funds are deposited into the County's account.

The County will remit interest earned on grant funds annually to the federal awarding agency for the grant through an electronic medium using Automated

Clearing House (ACH) network.

CONFLICT OF INTEREST

Standards of Conduct:

In accordance with 2 C.F.R. §200.18(c)(1), the County maintains the following standards of conduct covering conflicts of interest and governing the actions of its employees engaged in the selection, award and administration of contracts.

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a federal award if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract.

The officers, employees, and agents of the County may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts, unless the gift is an unsolicited item of nominal value.

Definitions:

Confidential information shall mean information not obtainable from reviewing a public document or from making inquiry to a publicly available source of information.

Conflict or Conflict of interest shall mean use by a Board member or County employee of the authority of his/her office or employment, or any confidential information received through his/her holding public office or employment, for the private pecuniary benefit of him/herself, a member of his/her immediate family or a business with which s/he or a member of his/her immediate family is associated. The term does not include an action having a de minimis economic impact, or which affects to the same degree a class consisting of the general public or a subclass consisting of an industry, occupation or other group which includes the Board member or County employee, a member of his/her immediate family or a business with which s/he or a member of his/her immediate family is associated.

De minimis economic impact shall mean an economic consequence which has an insignificant effect.

Immediate family shall mean a parent, parent-in-law, spouse, child, spouse of a child, brother, brother-in-law, sister, sister-in-law, or the domestic partner of a parent child, brother or sister.

Organizational Conflicts:

Organizational conflicts of interest may exist when due to the County's relationship with a subsidiary, affiliated or organization that is a candidate for award of a contract in connection with federally funded activities, the County may be unable or appear to be unable to be impartial in conducting a procurement action involving a related organization.

In the event of a potential organizational conflict, the potential conflict shall be reviewed by the **Personnel Committee** or designee to determine whether it is likely that the County would be unable or appear to be unable to be impartial in making the award. If such a likelihood exists, this shall not disqualify the related organization; however, the following measures shall be applied:

1. The organizational relationship shall be disclosed as part of any notices to potential contractors;
2. Any County employees or officials directly involved in the activities of the related organization are excluded from the selection and award process;
3. A competitive bid, quote or other basis of valuation is considered; and
4. The Board has determined that contracting with the related organization is in the best interests of the program involved.

Disciplinary Actions

If an investigation results in a finding that the complaint is factual and constitutes a violation of this policy, the County shall take prompt, corrective action to ensure that such conduct ceases and will not recur. County staff shall document the corrective action taken and, when not prohibited by law, inform the complainant.

Violations of this policy may result in disciplinary action up to and including discharge, fines and possible imprisonment. Disciplinary actions shall be consistent with Board policies, procedures, applicable collective bargaining agreements and state and federal laws.

Mandatory Disclosure

Upon discovery of any potential conflict, the County will disclose in writing the potential conflict to the federal awarding agency in accordance with applicable federal awarding agency policy.

****Procurement & Purchasing Policy****

PROCUREMENT

The purpose of this policy is to provide for the fair and equitable treatment of all persons involved in the procurement processes of the County of Alpena. This policy is intended to maximize the purchasing value of public funds in procurement and to provide safeguards for maintaining a procurement system of quality and integrity to serve the best interest of the County of Alpena. This policy will also serve to utilize the most efficient method of operating the procurement process for the County of Alpena.

County of Alpena routinely procures products and services from third party vendors in the fulfillment of its operation for various departments. As a public entity the County of Alpena has an obligation to conduct procurement activity in a timely, ethical, cost effective and efficient manner, and in accordance with all regulatory requirements of its funding and governing organizations. The County of Alpena also has an obligation to treat all vendors with whom it conducts business in a fair and ethical manner.

This policy applies to contracts for the procurement of supplies, services and construction entered into by the County of Alpena after the effective date of this policy. This includes all forms of procurement activities including written, telephone and online procurements. When the procurement involves the expenditure of federal or state assistance or contracted funds, the procurement shall be conducted in accordance with any mandatory applicable federal or state laws and regulations. Nothing in this policy shall prevent any department or agency from complying with the terms and conditions of any grant, gift or bequest that is otherwise consistent with law.

The County maintains the following purchasing procedures, which are meant to comply with relevant regulations for state and federal grants management.

A. CONFLICT OF INTEREST

No employee, officer, agent, elected official or Board Member shall participate in the selection, award, or administration of a contract if he or she has a real or apparent conflict of interest. Such a conflict of interest would arise when the employee, officer, agent, or Board Member, or any member of their immediate family, or organization which employs or is about to employ any of the parties indicated herein, has a tangible personal benefit from a firm considered for contract.

B. Responsibility for Purchasing

1. DELGATION OF AUTHORITY

This section sets forth the delegation of authority for the commencement of procurement actions and the award of such actions including contract modifications.

Solicitations for budgeted expenditures for materials, supplies and/or services that cost \$3,499.99 and less are authorized by departmental authority and do not require additional Board approval/action.

It is the responsibility of the department head, elected official or court administrator to set internal approvals. All procurements for materials, supplies and/or services \$3,500.00 and over will be verified by the Administrator's Office for compliance in accordance with the Procurement Manual.

The chart below represents a summary of the procurement thresholds and the method of procurement required for each.

PROCUREMENT SUMMARY

Amount of Procurement	Line Item Budgeted	Initial Authorization	Type of Solicitation	Award Authorization
Petty Cash (\$100 and less)	Yes	Department Head	N/A	Department Head

\$25,000-\$74,499.99	Yes	Appropriate Board	Department Collected Quotes	Appropriate Board
\$75,000 and more	Yes	Appropriate Board	Formal Solicitations	Appropriate Board

2. QUOTES

Department Heads will be responsible for obtaining quotes from two businesses/individuals that have comparable products/service. The Department Head will review the quotes and provide a recommendation with all pertinent information attached for the appropriate Committee to review, if required and make a recommendation to the full board.

3. SEALED BIDS

Department Heads will be responsible for preparing a bid package and advertising for the item/service to be purchased. Sealed bids will be opened in a posted meeting to be held in the Commissioners' Conference Room with the Finance Chairman or designee present. The original bids will immediately be given to the County Clerk. Department Head will retain a copy of the bids. Bids that are opened prior to this meeting will not be considered. The Department Head will review the bids and provide a recommendation with all pertinent information attached for the appropriate Committee to review and make a recommendation to the full board.

C. Purchase Methods

The type of purchase procedures required depends on the cost of the item(s) being purchased. Generally, professional services, such as legal and auditing are exempt from these procurement procedures.

Procurement Documents, Responsibilities and Quotes

Required procurement documents, personnel responsibilities and required quotations per purchase method will follow the adopted Bidding/Purchasing Policy noted in the procedures and policies of the County of Alpena. If there are any conflicts between the Purchasing Policy for the County of Alpena and the Procurement policies/procedures for the Grant Administration, the relevant State and/or Federal Grant Administration will supersede to comply with Federal regulations.

1. Purchases between \$500 and \$3,499 (Micro-Purchases)

Micro-purchase means a purchase of supplies or services using simplified acquisition procedures, the aggregate amount of which does not exceed \$3,499. The micro-purchase method is used in order to expedite the completion of its lowest-dollar small purchase transactions and minimize the associated administrative burden and cost. Procurement by micro-purchase is the acquisition of supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold.

To the extent practicable, the County distributes micro-purchases equitably among qualified suppliers.

Micro-purchases may be awarded without soliciting competitive quotations if the County considers the price to be reasonable. The County maintains evidence of this reasonableness in the records of all micro-purchases.

Please see *Allowable Costs* for written procedures on how to determine whether a price is reasonable.

2. Purchases between \$3,500 and \$24,499 (Small Purchase Procedures)

Small purchase procedures are those relatively simple and informal procurement methods for securing services, supplies, or other property that do not cost more than \$24,999. If small purchase procedures are used, price or rate quotations are obtained from an adequate number of qualified sources.

Quotes: Department Heads will be responsible for obtaining quotes from two businesses or individuals that have comparable products/services. The Department Head will review the quotes and provide a recommendation with all pertinent information attached to the County Administrator/Finance Director to review and make a recommendation to the Ways & Means Committee.

3. Purchases between \$25,000 and \$74,999

Formal Advertising: For purchases over \$25,000, bids are publicly solicited, and a firm fixed price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction, if the following conditions apply:

A complete, adequate, and realistic specification or purchase description is available.

Two or more responsible bidders are willing and able to compete effectively for the business; and

The procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

If sealed bids are used (for purchases over \$75,000), the following requirements apply.

Bids must be solicited from an adequate number of known suppliers, providing them sufficient response time prior to the date set for opening the bids, for state, local, and tribal governments, the invitation for bids must be publicly advertised.

The invitation for bids, which will include any specifications and pertinent attachments, must define the items or services in order for the bidder to properly respond.

All bids will be opened at the time and place prescribed in the invitation for bids, and for local and tribal governments, the bids must be opened publicly.

A firm fixed price contract award must be made in writing to the lowest responsive and responsible bidder.

Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs must be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of. Any or all bids may be rejected if there is a sound documented reason.

Competitive Proposals: The technique of competitive proposals is normally conducted with more than one source submitting an offer, and either a fixed price or cost-reimbursement type contract is awarded. It is generally used when conditions are not appropriate for the use of sealed bids. If this method is used, the following requirements apply:

Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical;

Proposals must be solicited from an adequate number of qualified sources; and Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.

The County may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated, and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

The County's procedure for sealed bids are as follows:

Department Heads will be responsible for preparing a bid package and advertising for the item/service to be purchased. Sealed bids will be opened in a posted meeting to be held in the Commissioners' Conference Room with the Finance Chairman or designee present. The original bids will immediately be given to the County Clerk. Department Head will retain a copy of the bids. Bids that are opened prior to this meeting will not be considered. The Department Head will review the bids and provide a recommendation with all pertinent information attached for the Finance Committee to review and make a recommendation to the full board.

Contract/Price Analysis: The County performs a cost or price analysis in connection with every procurement action in excess of \$75,000, including contract modifications. A cost analysis generally means evaluating the separate cost elements that make up the total price, while a price analysis means evaluating the total price, without looking at the individual cost elements.

The method and degree of analysis is dependent on the facts surrounding the particular procurement situation; however, the Department Head must come to an independent estimate prior to receiving bids or proposals.

When performing a cost analysis, the Department Head negotiates profit as a separate element of the price. To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

4. Noncompetitive Proposals (Sole Sourcing)

Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source and may be used only when one or more of the following circumstances apply:

The item is available only from a single source;

The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;

The federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the County; or

After solicitation of a number of sources, competition is determined inadequate; A cost or price analysis will be performed for noncompetitive proposals when the price exceeds \$75,000.

5. Emergency Procurement Policy

Definition of an Emergency

For the purposes of the County of Alpena, an Emergency is defined as: an unforeseen situation involving:

- a breakdown of essential machinery or equipment requiring immediate maintenance, repair, or replacement, or
- threatened termination of essential services provided by the County, or
- a dangerous condition develops, or
- an immediate need for supplies which may vitally affect the safety, health, property or welfare of the public and the normal procurement procedure is too time consuming.

Emergency Procurement Procedure

The County Administrator may waive established solicitation procedures for procurements \$25,000 and less in accordance with the County of Alpena emergency definition provided, above. Documentation in writing must be provided with the purchase request. Email, memo, or formal letter are a few examples of how this documentation may be provided.

It should be noted that the waiver of procedures may not be allowable for certain grant funded procurements.

C. Purchase Cards

Credit Card Policy:

Purpose: To provide a policy for authorization and use of County credit cards per Public Act 266 of 1995.

Policy: The following policy shall govern the use of County Credit Cards:

****Amended Addition: The County Administrator/Commissioners' Office/the County Treasurer is responsible for issuing, accounting for, monitoring, retrieving, and generally overseeing compliance with the County of Alpena Procurement & Purchasing Policy – Credit Card Policy section.***

County credit cards may be used only by an officer or employee of the County for the purchase of goods or services for the official business of the County. The use of a credit card is limited to the purchase of capital outlays, the payment of travel, meals and accommodation expense while on County business (excluding expenses incurred in operating a privately-owned automobile) and gas, oil and other necessary expenses incurred in operating a County-owned vehicle.

County officers and employees who use a County credit card shall, as soon as possible, submit a signed copy of the vendor's credit card slip to their Department Head, who then submits a credit card reconciliation and credit cards slips to the Commissioners' Office. If no credit card slip was obtained that described the transaction, the employee shall submit a signed voucher that shows the name of vendor or entity from which goods or services were purchased, the date and the amount of the transaction, the official business that required the transaction, and the chart of account number indicating the line item to which the transaction is to be charged. All credit card slips shall include this information as well. Vouchers shall also include a statement why a credit card slip was not obtained.

An official or employee who is issued a credit card is responsible for its protection and custody. If a credit card is lost or stolen, the Commissioners' Office shall be notified immediately. The entity issuing the lost or stolen credit card shall be immediately notified to cancel the card.

An officer or employee issued a credit card shall return the credit card to the Commissioners' Office upon termination of their employment or service with the County.

The Commissioners' Office shall maintain a list of all credit cards owned by the County, along with the name of the officer or employee who has been issued the credit card, the credit limit established, the date issued, and the date returned. Each employee shall initial the list beside their name to indicate agreement that the credit card has been issued, and that the employee has received and read a copy of this policy.

D. Full and Open Competition

All procurement transactions for federal and state grants must be conducted in a manner providing full and open competition consistent with 2 C.F.R § 200.319. In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements. Some of the situations considered to be restrictive of competition include but are not limited to:

Placing unreasonable requirements on firms in order for them to qualify to do business;

Requiring unnecessary experience and excessive bonding;

Noncompetitive pricing practices between firms or between affiliated companies;

Noncompetitive contracts to consultants that are on retainer contracts;

Organizational conflicts of interest;

Specifying only a " brand name" product instead of allowing " an equal" product to be offered and describing the performance or other relevant requirements of the procurement; and

Any arbitrary action in the procurement process.

1. Geographical Preferences Prohibited for Federal Grants

The County must conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, or tribal geographical preferences in the evaluation of bids or proposals, except in those cases where applicable federal statutes expressly mandate or encourage geographic preference. When contracting for architectural and engineering (A/E) services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

2. Local & Regional Bidders Preference – Non-Federal Grant Purchases

LOCAL BIDDERS PREFERENCE

The County of Alpena may grant an award to a qualified local bidder/vendor as defined below, if the said local bid/quotation is within 5% of the lowest bid/quotation meeting specifications submitted. The award may then be granted to the lowest local bidder for an amount equal to the lowest bid meeting specifications, i.e. the local bidder will be given an opportunity to meet the lowest bid meeting specifications.

To be considered for local bidder preference, a local bidder/vendor shall have met the following qualifications for at least one year prior to the date bid proposals are due:

- 1) Shall have a legal and permanent business address with the County of Alpena

- 2) Shall be a current personal property and real property taxpayer in the County of Alpena.
- 3) Shall be in compliance with all local codes and ordinances.
- 4) Shall not be indebted or in default to the County of Alpena or any other governmental entity.
- 5) Shall provide all appropriate proofs of insurance relevant to the aforementioned bid.
- 6) All pending litigation has be disclosed.

REGIONAL BIDDERS PREFERENCE

The County of Alpena may grant an award to a qualified regional bidder/vendor as defined below, if the said regional bid/quotation is within 3% of the lowest bid/quotation meeting specifications submitted. The award may then be granted to the lowest regional bidder for an amount equal to the lowest bid submitted meeting specifications, i.e. the local bidder will be given an opportunity to meet the lowest bid meeting specifications.

To be considered for regional bidder preference, a regional bidder/vendor shall have met the following qualifications for at least one year prior to the date bid proposals are due:

- 1) Shall have a legal and permanent business address with the County of Alpena
- 2) Shall be a current personal property and real property taxpayer in the County of Alpena.
- 3) Shall have a legal and permanent business address within 50 miles of the County of Alpena.
- 4) Shall be in compliance with all local codes and ordinances.
- 5) Shall not be indebted or in default to the County of Alpena or any other governmental agencies in Alpena County.
- 6) Shall provide all appropriate proofs of insurance relevant to the aforementioned bid.
- 7) All pending litigation has be disclosed.

3. Prequalified Lists

The County must ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, the County must not preclude potential bidders from qualifying during the solicitation period.

4. Solicitation Language

The County must ensure that all solicitations incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description must not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, must set forth those minimum essential characteristics and standards to which it must conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible.

When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a "brand name or equivalent" description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which must be met by offers must be clearly stated; and identify all requirements which the offerors must fulfill and all other factors to be used in evaluating bids or proposals. 2 C.F.R Federal Procurement System Standards.

5. Avoiding Acquisition of Unnecessary or Duplicative Items

The County must avoid the acquisition of unnecessary or duplicative items. Additionally, consideration is given to consolidating or breaking out procurements to obtain a more economical purchase. And, where appropriate, an analysis must be made of leases versus purchase alternatives, and another other appropriate analysis to determine the most economical approach. These considerations are given as part of the process to determine the allowability of each purchase made with federal funds. Please see *Allowability of Costs* for written procedures on determining allowability.

6. Use of Intergovernmental Agreements

To foster greater economy and efficiency, the County enters into state and local intergovernmental agreements where appropriate for procurement or use of common or shared goods and services.

7. Use of Federal Excess and Surplus Property

The County considers the use of federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.

8. Debarment and Suspension

The County awards contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration will be given to such matters as contractor integrity,

compliance with public policy, record of past performance, and financial and technical resources.

The County may not subcontract with or award subgrants to any person or company who is debarred or suspended. For all contracts over \$25,000 the County verifies that the vendor with whom the County intends to do business with is not excluded or disqualified. 2 C.F.R. Part 200, Appendix II(I) and 2 C.F.R. §§ 180.220 and 180.300.

9. Maintenance of Procurement Records

The County must maintain records sufficient to detail the history of all procurements. These records will include but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, the basis for the contract price (including a cost or price analysis), and verification that the contractor is not suspended or debarred.

The County follows the State of Michigan Record Retention Policies.

10. Time and Materials Contracts

The County may use a time and materials type contract only (1) after a determination that no other contract is suitable; and (2) if the contract includes a ceiling price that the contractor exceeds at its own risk. Time and materials type contract means a contract whose cost to the County is the sum of: the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, each contract must set a ceiling price that the contractor exceeds at its own risk.

Further, the County must assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

11. Settlements of Issues Arising Out of Procurements

The County alone is responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes, and claims. These standards do not relieve the County of any contractual responsibilities under its contracts.

Violations of law will be referred to the local, state, or federal authority having proper jurisdiction.

12. Protest Procedures to Resolve Dispute

The County maintains protest procedures to handle and resolve disputes relating to procurements and, in all instances, discloses information regarding the protest to the awarding agency.

Violations of any provision to the County of Alpena Procurement & Purchasing Policy will result in disciplinary measures up to and including immediate termination and may include criminal proceedings if warranted.

TRAVEL REIMBURSEMENT

Travel - Travel costs are the expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business of a grant recipient. Such costs may be charged on an actual cost basis, on a per diem or mileage basis in lieu of actual costs incurred, or on a combination of the two, provided the method used is applied to an entire trip and not selected days of the trip, and results in charges consistent with those normally allowed in like circumstances in the recipient's non-federally funded activities and in accordance with the recipient's written travel reimbursement policies. 2 C.F.R §200 .474(a).

Costs incurred by employees and officers for travel, including costs of lodging, other subsistence, and incidental expenses, must be considered reasonable and otherwise allowable only to the extent such costs do not exceed charges normally allowed by the County in its regular operations as the result of its written travel policy. In addition, if these costs are charged directly to the federal award, documentation must be maintained that justifies that (1) participation of the individual is necessary to the federal award; and (2) the costs are reasonable and consistent with the County's established policy. 2 C.F.R §200.474(b).

See additional County policies for more information on the travel policies.

EQUIPMENT AND REAL PROPERTY MANAGEMENT

Source of Governing Requirements - The requirements for equipment are contained in the Uniform Guidance, program legislation, Federal awarding agency regulations, and the terms and conditions of the award.

Additional Policies and Procedures - The following policies and procedures will also be applied, to the extent that they do not conflict with or contradict the

existing Board policies.

In order to ensure compliance with these requirements, County of Alpena has:

1. All equipment will be used in the program for which it was acquired or, when appropriate, other Federal programs.
2. When required, purchases of equipment will be pre-approved by the grantor or pass-through agency. The Program Director will be responsible for ensuring that equipment purchases have been previously approved, if required, and will retain evidence of this approval.
3. Property/Equipment records will be maintained, a physical inventory shall be taken every two years, and an appropriate system shall be used to safeguard assets.
4. When assets with a current per unit fair market value of \$5,000 or more are no longer needed for a Federal program, a request for written guidance shall be made from the grantor agency as to what to do with the property/equipment prior to sale or relocation. The County shall abide with the requirements set out in §200.311 and §200.313 of the Uniform Guidance in this regard. If a sale will take place, proper procedures shall be used to provide for competition to the extent practical and result in the highest possible return.

SUBRECIPIENT MONITORING

Source of Governing Requirements - The requirements for subrecipient monitoring are contained in 31 USC 7502(f)(2)(B) (Single Audit Act Amendments of 1996 (Pub. L. No. 104-156)), Uniform Guidance, program legislation, 2 CFR parts 25 and 170, and 48 CFR parts 4, 42, and 52 Federal awarding agency regulations, and the terms and conditions of the award.

The County will review and oversee subrecipient activity and obtain a copy of their single audit. Other oversight processes and procedures will be established on a case by case basis, dependent on grant requirements and the level of activity of the subrecipient.

****Tax Revolving Fund #516 – 524****

General Subject: DELINQUENT TAX REVOLVING FUND

Date Issued: Adopted 12/10/1996, Amended 4/23/1999,
Amended 12/17/2004, Amended 12/20/2011

Effective Date: December 20, 2011

BACKGROUND:

The first borrowing authority granted to counties in connection with the Delinquent Tax Revolving Fund was approved by the legislature in 1992 by an amendment to the Municipal Finance Act. This legislation provided that when a Delinquent Tax Revolving Fund had been created, the County could borrow money to provide funds to fund the same.

Counties established a Delinquent Tax Revolving Fund for the purpose of obtaining funds to pay to all taxing units within the County the total amount of delinquent real property taxes, which have not been collected by the due date pursuant to the Michigan property tax law, Act 206 of the Public Acts of 1983, as amended. Once created, all delinquent taxes, interest and collection fees are payable to the County (to be deposited in the Tax Payment Fund) on the date the same become delinquent.

The main objective of counties having a Delinquent Tax Revolving Fund is to become totally self-funded (no borrowing needed). Alpena County has been able to self-fund (without borrowing) the Delinquent Tax Revolving Fund since May 1990.

PURPOSE:

The purpose of this police is as follows:

To maintain the solvency of the Delinquent Tax Revolving Fund so it can continue to provide to all taxing units within the County of Alpena the total amount of delinquent real property taxes, which have not been collected by the due date.

To establish guidelines on disbursement of surplus Delinquent Tax Revolving Fund monies in any given year.

STATEMENT:

It is Alpena County's FIRST AND FOREMOST objective to continue to utilize the Delinquent Tax Revolving Fund for the purpose it was first established. All taxing units within Alpena County have benefited greatly from this fund. Significant hardship would be felt by most local units of government if this fund were to be placed in jeopardy.

Approximately twelve years were spent on becoming self-funded and it is Alpena County's goal to remain so in the years ahead. Surplus funds earned over the years and

the prudent caretaking of those surplus funds have helped Alpena County establish our self-funding status.

The Delinquent Tax Revolving Fund generates surplus funds in the following manner.

- Collection Fees
- Expense of Sale Fees
- Interest on Taxes
- Interest Earnings on Investments

Any surplus funds generated by the Delinquent Tax Revolving Fund should be used wisely and fairly by the Board of County Commissioners to:

- Provide basic services
- Maintain the useful life of existing facilities
- Enhance the quality of life in Alpena County

PROCEDURE:

It is the Board of Commissioners' position to spend no more than one-half of the total yearly surplus funds to:

Help defray ordinary operating expenses of the County of Alpena through its General Fund

To help maintain an Equipment and Replacement Fund established by the Board of Commissioners to be used to record the acquisition of new equipment or the replacement of old equipment

To help maintain a Building and Grounds Maintenance Fund established by the Board of Commissioners to be used to purchase major materials and provide major services to other departments of the same local unit of government

~~To help maintain an Employees Sick Pay Fund established by the Board of Commissioners to be used to account for monies set aside to pay employees "sick pay" when they leave employment~~

That distributions made by the Board of Commissioners be reviewed and budgeted on annual basis. That the Board of Commissioners be able to identify, prioritize and distribute surplus monies consistent with County goals.

SUMMARY:

While there is no way we can accurately predict the future, the policy outlined above should permit Alpena County to meet its objectives. **THE PRINCIPAL OBJECTIVE BEING TO REMAIN SELF-FUNDED.**

Board Action: December 10, 1996

#1 AMENDMENT TO THE REVOLVING FUND

Cash Fund Balance Requirement

- a. The annual amount given out to local units of government, within fifteen days of the settlement of the local units, is this amount is then multiplied by 2.2 and that amount is the minimum cash balance that has to be maintained to keep the fund stable. This cash balance shall be invested per the Treasurer in instruments no longer than 24 months.
2. Any cash funds projected over all fund payables and the 2.2 rule, shall be invested per the Treasurer in instruments no longer than five years.

Board Action: April 23, 1999

#2 POLICY AMENDMENT TO THE TAX REVOLVING FUND

With the requirement to have a special Revenue Sharing Reserve Fund as determined by the State of Michigan which will last until 2011 to replace State Revenue Sharing. Over this period time we will receive about \$1.2 to \$1.5 million dollars less from the State of Michigan to operate County Government.

The earnings from the Revolving Tax Fund are currently shared with the General Fund, 50% is kept in the fund to maintain the equity of cash of 2.2 times the annual settlement, while the other 50% of earnings is transferred to the General Fund for operations. We have been able to achieve the equity rule.

The Policy Change Amending the approved version date April 15, 1999 as amended:

For a period from Fiscal Year 2005 to Fiscal Year 2011, up to 100% of the earning would be eligible to be transferred to the general Fund, no more than one half of those funds shall be transferred to the Building and Grounds Fund, Sick Pay Fund, Budget Stabilization Fund and the Equipment Fund as recommended by the County Treasurer and **County Administrator**. The other half of those funds, along with any balance not transferred to the above-mentioned funds would be used to operate the core county services. This would be subject to our equity rule requiring the Revolving Tax Fund balance be met.

Those core services are the Court systems, the Jail, the Sheriff mandates, the County Clerk, County Treasurer, the Register of Deeds, the Prosecutor Office, Drain Office, the Equalizations Department, IT Department, code enforcement, the County Airport, maintenance to support equipment and facilities of the core services and administrative services.

COUNTY OF ALPENA, MICHIGAN

****Accountability Standards for Nonprofit Organizations****

PURPOSE

For funding services provided by not-for-profit agencies on behalf of the County (i.e. older persons, fairgrounds, etc).

POLICY

The County Board of Commissioners will decide if a not-for-profit agency is qualified to receive funding of local tax dollars to provide certain services to the public.

1. That each agency will submit a written proposal with details on the service to be provided, its cost, what is efficient about that service and what will be the results of the service offered.
2. The agency shall demonstrate they follow proper practices as outlined in the Accountability Standards for Nonprofit Organizations and acknowledge by submitting a signed copy of same. (Please see attachment) Any deviation from the practices outlined must be disclosed and be attached to and made part of any agreement.
3. When the agency has meetings concerning financial issues, budget updates, discussion on service and service improvements, along with any approval, the agency shall have published in the local media the time, date and location of these open meetings of their board so that the public and users can be present and be allowed to provide input about the services or new services needed.
4. Annually, the agency will submit the number of employees, their positions, the positions pay scale, a summary of employee benefits and the names of organization board members.
5. Annually the agency will provide a list of persons who have authority to speak for the Board of that agency. This list shall include their phone numbers; fax numbers and e-mail addresses.
6. Annually the agency shall submit their annual budget request for funding in the format provided by the county.
7. Fiscal bench marking will be established for each service provided by any agency and these benchmarks will be reported to the County at least four times a year. This will provide a cost/benefit ratio of the service and its performance to the community.
8. There will be a written agreement for service for a period not to exceed one year, covering the services being contracted for, its cost, the monthly payment date, performance results, fiscal reporting requirements and other terms.
9. Unrestricted Fund Balances of an agency that are in excess of 75 days of cash flow, will subject that agency to less local public funding.

10. The County will not make donations of any fund to any not-for-profit agency and will only contract for services provided to the County.

PROCEDURE

All agencies that Alpena County has agreements with must sign the attached Accountability Standards for Nonprofit Organizations.

The County of Alpena (County) occasionally may find that it is in the public's interest that certain non-profit groups be retained to perform or carry out activities that might, otherwise, need to be performed by the County. In order to maintain accountability for use of the County's funds and promote ethical practices by these philanthropic organizations, the County has adopted certain accountability standards that should be met by nonprofit organizations, which are retained by the County, as a condition to obtain or retain funding from the County.

The County does not endorse or disapprove of any organization, and failure to meet standards is not a charge of unethical, inept, or otherwise improper conduct. It may reflect a simple difference of opinion, or the organization's failure to supply the County with the information the County needs in order to assess whether a particular standard has been met. In the County's opinion, the standards represent reasonable measures of accountability.

The County reserves the right to change, apply, or amend these standards, solely at its discretion. For organizations less than three years old or with annual budgets of less than \$75,000, greater flexibility in applying some of the standards may be appropriate.

GOVERNANCE AND OVERSIGHT

The governing board has the ultimate authority for any nonprofit organization. This section of the standards seeks to ensure that the volunteer board is active, independent, and free of self-dealing.

The board is responsible for policy setting, fiscal guidance, and ongoing governance, and should review the organization's policies, programs, and operations.

Fiscal guidance includes responsibility for investment management decisions, for internal controls, and for short and long-term budgeting decisions.

The board should have:

1. An independent, volunteer membership. *The ability of individual board members to make independent decisions on behalf of the organization is critical. Existence of relationships that could interfere with this independence compromises the board.*
2. An individual attendance policy. *Board membership should be more than honorary, and should involve active participation in board meetings.*
3. Specific terms of office for its officers and members.
4. A risk management policy. *To protect its assets against loss, and staff and volunteers against liability, adequate insurance should be*

secured. Individuals with access to significant organizational cash or investments should be bonded.

To meet these standards, the organization shall have:

5. A board of directors with a minimum of five voting members. If the board has an executive committee, the committee also shall have a minimum of five voting members.
6. A minimum of three evenly spaced meetings per year of the full governing body with a majority in attendance, in-person. An in-person meeting of the board's executive committee or a conference call of the full board can substitute for one of the three meetings of the governing body. For all meetings, alternative modes of participation are acceptable for those with physical disabilities.
7. Not more than one directly compensated (e.g., a paid staff member) or indirectly compensated (e.g., spouse or family relation of paid staff member) person serving as a voting member of the board. Compensated members shall not serve as the board's chair or treasurer. Nonprofit board members' voluntary service is a deeply rooted tradition in the nonprofit sector. Most donors and nonprofit organizations expect that board members serve without compensation. Reimbursement may be made for costs incurred as a result of board participation, such as travel expenses.
8. No transaction(s) in which any board or staff members have material conflicting interests with the nonprofit resulting from any relationship or business affiliation. Factors that will be considered when concluding whether or not a related party transaction constitutes a conflict of interest and if such a conflict is material, include, but are not limited to: any arm's length procedures established by the nonprofit; size of the transaction relative to like expenses of the charity whether the interested party participated in the board vote on the transaction; if competitive bids were sought and whether the transaction is one-time, recurring or ongoing.
9. A board of directors that provides adequate oversight of the nonprofit's operations and its staff. Indication of adequate oversight includes, but is not limited to, regularly scheduled appraisals of the CEO's performance, evidence of disbursement controls such as board approval and monitoring of the budget and fund raising practices, and establishment of accounting procedures sufficient to safeguard nonprofit finances.

MEASURING EFFECTIVENESS

An organization should regularly assess its effectiveness in achieving its mission. This section seeks to ensure that an organization has a defined process in place to evaluate the success and impact of its program(s) in fulfilling the goals of the organization and that also identifies ways to address any deficiencies.

To meet these standards, a charitable organization shall:

1. Have a board policy of assessing, no less than every two years, the organization's performance and of determining future actions required to achieve its mission.
2. Submit to the organization's governing body, for its approval, a written report that outlines the results of the aforementioned effectiveness assessment and recommendations for future actions.

FINANCES

This section of the standards seeks ensure that the nonprofit spends its funds honestly, prudently, and in accordance with statements made in fund raising appeals.

To meet these standards, the nonprofit organization shall:

1. Spend funds in accordance with donor intentions. To meet this standard a nonprofit should be able to substantiate, on request, that the timing and nature of its expenditures are in accordance with donor restrictions, designations and expectations.
2. Spend at least 70% of its total expenses on program activities.
3. Spend no more than 30% of related contributions on administration and fund raising.
4. Avoid accumulating funds that could be used for current program activities. To meet this standard, the nonprofit's unrestricted net assets (excluding fixed assets) available for use should not exceed the total expenses budgeted for the current year. While the County believes that organizations should maintain a reasonable level of cash to safeguard against unexpected financial challenges, maintaining excess reserves indicates the organization is not maximizing the use of its nonprofit mission. In such cases, it may not be appropriate to continue soliciting from the public.
5. The organization does not have persistent or increasing operating deficits. The nonprofit should use its resources prudently and should maintain a healthy financial picture. When making a contribution, donors want to know that the organization has the financial strength to pursue its mission on a long-term basis.

An organization that does not meet Standards 9, 10, 11, and/or 12 may provide evidence to demonstrate that its use of funds is reasonable. The higher fund raising and administrative costs of a newly created organization, donor restrictions on the use of funds, exceptional bequests, a stigma associated with a cause, and environmental or political events beyond an organization's control are among factors which may results in expenditures that are reasonable although they do not meet the financial measures cited in those standards.

Make available to all, on request, complete annual financial statements prepared in accordance with generally accepted accounting principles. When total annual gross income exceeds \$250,000, these statements should be audited in accordance with generally accepted

auditing standards. For nonprofits whose annual gross income is less than \$250,000, a review by a certified public accountant is sufficient to meet this standard. For nonprofits whose annual gross income is less than \$100,000, an internally produced, complete financial statement is sufficient to meet this standard.

Any organization that is in receipt of funds from the County agrees to allow the County or its representative/agent to examine the records and books of the organization for the fiscal year(s) in which the organization received funds from the County. Any organization in receipt of \$100,000 or more in funds from the County during a calendar year shall be audited by an independent certified public accounting firm and shall provide the County a copy of its audited financial statements within six months after the end of its fiscal year end.

6. Include in the financial statements a breakdown of expenses (e.g., salaries, travel, postage, etc.) that shows what portion of these expenses was allocated to program, fund raising, and administrative activities. If the nonprofit has more than one major program category, the schedule should provide a breakdown for each category.
7. Accurately report the nonprofit's expenses in its financial statements. For example, audited or unaudited financial statements which inaccurately claim zero fund raising expenses or otherwise understate the amount a nonprofit spends on fund raising, and/or overstate the amount it spends on programs will not meet this standard. In determining if a nonprofit meets this standard, the County may check the accuracy of any joint cost allocations.
8. Provide to all, on request, a board-approved annual budget for its current fiscal year, outlining projected expenses for major program activities, fund raising, and administration.

PUBLIC DISCLOSURE

To uphold the public's trust in the nonprofit sector, a nonprofit should at a minimum carry out its actions in accordance with Michigan and federal charity law.

For the year under review and the preceding two years, the organization has not violated any applicable provisions of Michigan or federal law relating to the organization's tax exempt status, fund raising practices, or registration with and reporting to governmental agencies and the public.

Program names, activities and financial information listed in the annual report, audited financial statement and IRS Form 990 are consistent.

FUND RAISING AND INFORMATIONAL MATERIALS

A fund raising appeal is often the only direct contact a donor has with a nonprofit and may be the sole impetus for giving. This section of the standards seeks to ensure that a nonprofit's representations to the public are accurate, complete, and respectful.

To meet those standards, the nonprofit organization shall:

1. Have solicitations and informational materials, distributed by any means, that are accurate, truthful, and not misleading, both in whole or in part. Appeals that omit a clear description of program(s) for which contributions are sought will not meet this standard.
2. Include on any nonprofit websites that solicit contributions, the same information that is recommended for annual reports, as well as the mailing address of the nonprofit and electronic access to its most recent IRS Form 990.
3. Address privacy concerns of donors, if the organization shares personal information about its donors outside the organization, by providing a clear privacy policy that tells its donors what information, if any, is being collected about them by the nonprofit and how this information will be used; how to contact the nonprofit to review personal information collected and request corrections, and how to inform the nonprofit (e.g., a check-off box) that the visitor does not wish his/her personal information shared outside the organization.
4. Donors are entitled to know who is soliciting their gift and what portion of their gift will be received by the nonprofit. Solicitors who are not employees or volunteers of the nonprofit identify themselves in each solicitation as professional fundraisers and, upon request, provide the name and address of their employer or contracting party. Upon request, persons authorized by the nonprofit to utilize the nonprofit's name in connection with sale or marketing of goods or services provide accurate information about the percentage of gross revenue that is paid to the nonprofit.
5. Respond promptly to and act on complaints brought to its attention by donors, the public, or regulatory agencies about fund raising practices and privacy policy violations and/or other issues.

Unless the IT Director determines a fiber extension may benefit the County, a cost sharing proposal may be considered to expand the system physically.

Annually the maintenance cost for the fiber system, including pole rent share, shall be shared by taking the total cost, dividing by 24, to determine cost per stand, then times the number of strands used by an outside user of the County.
