

Why Gaggle?

Gaggle understands the importance of safety and well-being for students. We know that school leaders are investing in tools and programs to protect students and we want to help them. **Gaggle is a recognized leader in student safety.**

Gaggle's Safety Team reviews content flagged by our own technology as potentially harmful. It is then determined whether the content requires intervention from the district. If the content requires intervention, it is considered an incident.

Incident types include:

ROUND THE CLOCK SPEED AND ACCURACY

Our trained professionals **evaluate content 24/7/365**, filter out false positives that do not pose a threat to student safety, and send an email regarding non-life-threatening incidents to the designated staff. **In severe situations, district-appointed contacts are notified immediately.**

When it comes to suicide, self-harm, and gun detection, we understand the importance of speed and accuracy to help school districts keep students safe.

Our mission is to ensure the safety and well-being of students and schools by leveraging people and technology; **we have helped 1,000s of districts avoid tragedies and save lives.** During the past five school years, Gaggle was instrumental in helping K-12 districts **save the lives of 5,791 students.**
