Conclusions

The potential loss of over 1.5 million dollars in Federal Funds could significantly impact Fort Smith Public schools through the loss of opportunities for students and staff in areas such as:

- Staff
- Academic opportunities to address diverse student needs
- Professional Development
- Teacher Recruitment and Retention
- Classroom Materials and Supplies
- Technology

Now What?

FSPS will continue to fund these resources using the appropriate federal fund.

Supplement not supplant issues are being reviewed by DESE.
