Subject:	VIII. CONSENT AGENDA FOR APPROVAL D. APPROVE SUPERINTENDENT GUARDRAILS				
Presenter or Contact Person:	Chief Academic Officer Dr. Charlotte S. Ford				
Policy/Code:	AE (LOCAL)				
Summary:	Superintendents operate within a set of guardrails that define the boundaries of their leadership while allowing flexibility to innovate and lead effectively. These guardrails are established by school boards, and they ensure that decisions remain ethical, transparent, and aligned with the district's mission. Superintendent guardrails emphasize the importance of ethical leadership, equity, and accountability to students, staff, and the community. By setting clear expectations, these guardrails protect the district from misuse of authority and help maintain a healthy balance between superintendent autonomy and school board oversight, ensuring that all actions support achievement of the student outcome goals.
