

Honoring Southside's Tradition

Reinstalling Trophy Display Cases

The absence of trophy display cases in the main hallway limits students' connection to their achievements. Reinstalling these showcases will inspire pride and recognition of Southside's rich history of excellence.

Impact of the 2019 Renovations

The renovated main hallway is modern and inviting, yet lacks permanent display cases. This absence limits our ability to showcase Southside's rich history of **academic and athletic achievements** effectively.

Achievements Hidden from View

Many championship trophies are currently stored away, preventing students and visitors from experiencing Southside's legacy of excellence. Restoring visible displays is essential to celebrate these achievements and inspire future generations.

Celebrating Athletic Achievements

Southside High School has a rich history of **athletic excellence**, with numerous conference championships and state titles. These accomplishments deserve to be prominently displayed, inspiring current and future athletes alike.

Celebrating Academic Achievements

Southside High School's academic teams consistently earn **top honors** at regional and state competitions, showcasing our commitment to excellence in education and dedication to fostering student success in various disciplines.

Celebrating Excellence

Architectural renderings provide an initial visualization of the potential improvements to our building.

The estimated cost for the project is approximately \$2,500 per linear foot, totaling between \$250,000 and \$300,000.

Base on estimates, the following represents the projected cost of each display case.

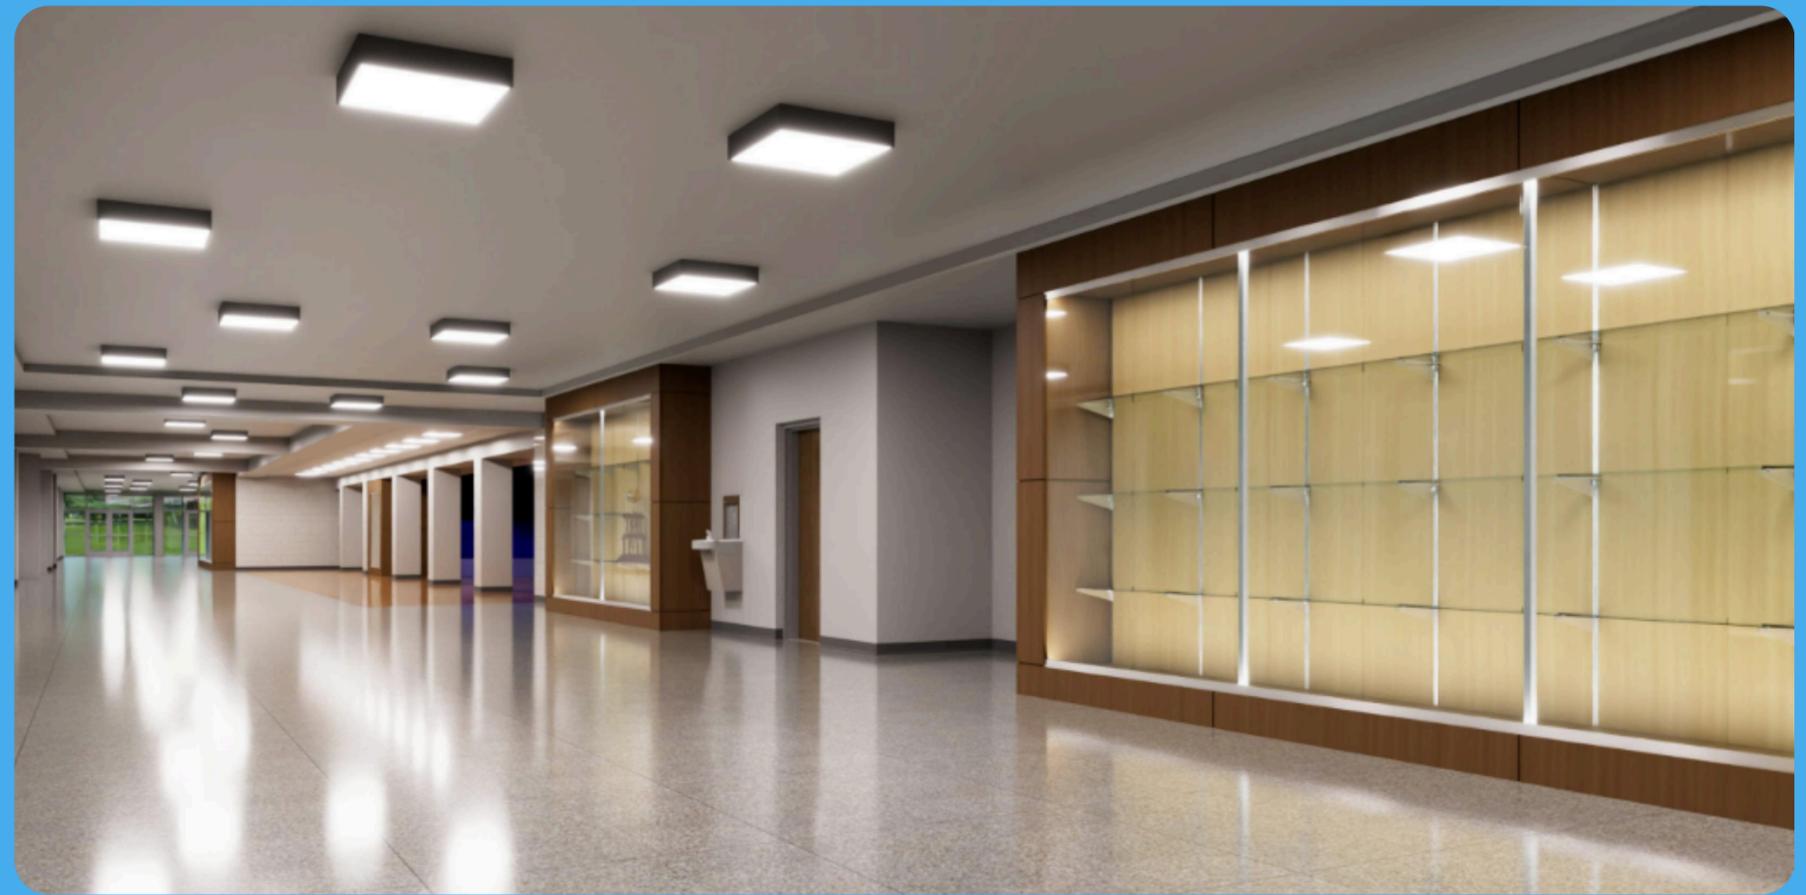

Case 1 \$80,000

Case 2 \$70,000

Case 3 \$35,000

Case 4 \$80,000

Case 5 \$35,000

We request that the board consider providing funding for this project to complete all phases. Although the estimated cost of \$300,000, plus design fees, represents a significant expenditure, it does replace the previous resources available to showcase our students' achievements.
