Participation By Students Enrolled in Alternative Education Programs

Note: Effective July 1, 2013, a high school student who is enrolled full-time in an alternative education program is eligible to participate in extracurricular activities in the student's district of residence if the student's alternative program does not offer interscholastic activities. The student is required to meet the same eligibility criteria for participation as district students and must provide documentation, including transcripts, proof of full-time enrollment, applicable disciplinary records, and medical records, if required for participation in the activity. The student must claim the same school for interscholastic purposes during a school year. AS 14.30.365.

The School Board welcomes the participation in extracurricular activities of eligible students who are enrolled full time in alternative education programs. Participation is available to those students who would be permitted to enroll in the district based on the residency of the student's parent or legal guardian. Students must meet the same eligibility requirements for participation in the activity as district students, and must provide all documentation required to confirm eligibility. Participation is available in those interscholastic activities sanctioned by the Alaska School Activities Association that occur outside the regular curriculum. Participation is not available in student government at a school.

The alternative education program in which a student is enrolled must be located entirely in Alaska and must be a public secondary school that provides a nontraditional education program, including the Alaska Military Youth Academy; a public vocational, remedial, or theme-based program; an accredited home school program; a charter school; or a statewide correspondence school.

Note: A student wanting to participate in activities but whose parent or legal guardian is not a resident of the district may still request participation. A student meeting all other requirements will be eligible if the Board approves participation based on good cause demonstrated by the student. AS 14.30.365. Good cause is not defined in this statute. Decisions on eligibility should be made by the Board on a case-by-case basis, considering all applicable circumstances. Such determinations should be evenly applied to students in similar situations.

The Board recognizes that good cause may exist for a student to participate in district extracurricular activities even if the student's parent or guardian does not reside within the district. Students who attend an alternative education program full time and who otherwise meet the eligibility requirements for the extracurricular activity(ies) may apply to the district for participation despite the lack of residency. Such a request must be submitted to the superintendent or designee with a written explanation of the good cause that exists. Eligibility in this situation must be approved by the Board. Unless the parent or eligible student's presence is requested at a meeting of the Board, the Board's decision will be based upon the written request submitted, including any recommendation by the superintendent or designee. Board approval will be effective for the school year in which the student applies and may be renewed annually if the good cause continues to exist.
