Re: Private Security Officer for Two Rivers High School

Board Members,

The district recently completed the RPF process to select a company that will provide an armed, private security officer at Two Rivers High School. The officer's primary responsibility will be to operate the school's weapon detection system located at the main entrance, which is expected to greatly enhance campus security. Following a thorough review, the selection committee has chosen Priority Protection Group, based in Ogden, to receive the contract. The committee felt strongly about partnering with a local company for this service. This will be a pilot project, and the contract will be reviewed annually to assess its effectiveness and value to the school.

School Year	Days/Year	Annual Hours	Annual Lump Sum
