From: Theresa O'Brien, Chief Academic Officer

Subject: Hanover Research Purchase

I would like to request to be placed on the agenda for the Committee of the Whole Meeting on December 9, 2020, to request the purchase of Hanover Research services. Hanover's advisors would work with us to provide research on trends, help gather and interpret stakeholder feedback, analyze the district's current performance, and provide support in evaluating the elementary integrated modules that we are writing for K-4 classrooms

The attached quote is for a three-year contract with Hanover Research. We do have a clause to opt out after the 2021-22 school year, in the event we need the funds for other purposes. We will be utilizing Title II funds for this purchase.
