Monday, May 23  
WUHS Auditorium  
Enter Door #19

Informal Poster Session:  
6:00pm - 6:30pm  
Presentations:  
6:30pm

### This Year's Projects

Eli Gadbury, Tyler Lusic, Maxim Scheu: designed a device that automatically cleans a dirty shoe placed inside it

Josh Beyer and Noah Schierl: designed a wagon that can autonomously follow a user and lift up heavy objects to a more convenient height

Tyler Howe and Devyn Tyacke: designed a device that uses radio frequency to track a golf ball, and uses Bluetooth to locate the ball through a smartphone application
