

KAUFMAN ISD - MAINTENANCE AND TRANSPORTATION REPORT

December 2024

The Kaufman ISD maintenance team has continued to work on repairs and improvement projects around the district. There were over 280 work orders submitted in November. Here are just a few of the projects that are in process:

Baseball renovations are continuing. Trees were removed and the area around the press box was prepared for concrete. Julian Juanez and Mike Cerva have been working hard to regrade the surrounding landscape in preparation for the upcoming season.

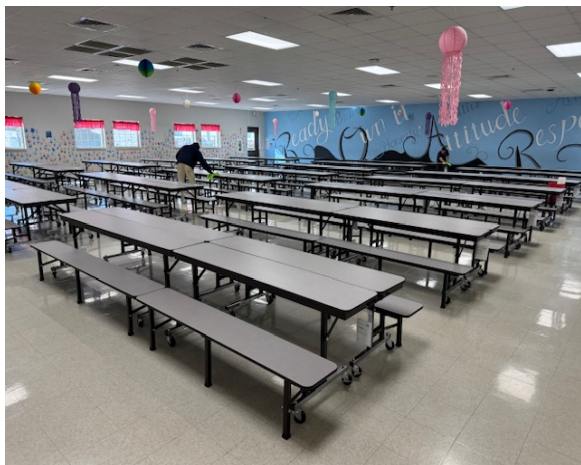

Concrete was poured and the new pavilion looks fantastic !!

The baseball field was stripped, then laser cut and a new natural surface has been put down. The irrigation system was rebuilt to provide the new bermuda grass with plenty of water.

The crew assembled and installed 80 cafeteria tables at Monday Elementary. The students now have more space to enjoy lunch.

It is always an adventure when replacing parking lot bulbs around the district. Here, James Burt uses the bucket truck to replace the old lights with new LED's.

At the high school, the crew is using crushed granite to upgrade the existing garden beds. It is our goal to have all of the beds completed by the end of the school year.

****WORK ORDER NUMBERS FOR NOVEMBER****

Total work orders: 282 Work orders completed: 268
Work in progress: 12
On hold: 2

Last month, there were an average of 14.8 work orders put in for each working day of the month. The crew was able to complete 95% of those work orders successfully.

Work In Progress 

-  On Hold
-  Duplicate Request
-  Parts on Order
-  Complete
-  Work In Progress

TRANSPORTATION

The Transportation Department has continued its hard work to provide the district with safe and reliable transport on the daily! In addition, the team enjoys being supportive of the programs that are important to our community !

The Transportation and Maintenance Departments were happy to issue a new set of windbreakers for the staff in preparation for cooler temperatures. This is veteran driver Mr. Hill sporting the new gear!

The team was delighted to transport the elementary students to the junior high pep rally this year ! The students had a great time !!

The Transportation and Maintenance Departments teamed up to celebrate the Thanksgiving Holiday recently. The staff enjoyed getting a chance to eat some great food and enjoy the season.

Keeping the fleet running is hard work, but our team is up for the challenge. Here we see some continuing education being done by our new Routing Coordinator JoGail Fosse and our new Director Christina Dillehay. Go Lions !!

The Transportation Department would like to thank all of the people who continue to provide support to make Kaufman ISD the best school district in Texas !
