

Terrell Independent School District

Executive Summary Report

Date	District Objective	Agenda Item #
April 14th, 2020	Goal 7: To improve all district facilities	5

Agenda Item: Designate authority to superintendent to enter into contract for the repair of Furlough Middle School roof and other district facilities as identified by insurance adjuster caused by recent storms

Summary: Recent storms have caused significant damage to the Furlough Middle School roof. Estimated repairs are expected to exceed the \$50,000 threshold and therefore require board approval. The district is still in the process of acquiring quotes and is asking for the authority to begin work as soon as quotes are received and the contractor is selected. It is anticipated that the insurance adjuster will identify additional damage caused by storms but that may not be urgent. Once the report is received from TASB, administration will address further damage as necessary.
