MEMORIALS
AND
TRIBUTES

The Board of Trustees finds that it is in the interest of the District to recognize, from time to time, individuals who exemplify the qualities of leadership, scholarship and personal achievement, and who serve, by their example, as role models for the youth of Beeville.

The Board therefore authorizes the creation of designated locations on each of the District's campuses for the purpose of providing a location or locations for displaying memorials or tributes in a manner consistent with the educational mission of the campus and District.

The use of District property for the purpose of displaying a limited number of memorial or tributary displays shall not interfere with the use of District property for school purposes; nor shall the acceptance of a tribute or plaque in any way limit the District for using District property for school purposes in the future, even if such use shall require removal, relocation, or destruction of the memorial or tribute at some future date. Prior to relocation or removal a reasonable effort may be made to contact and inform the pertinent individuals concerning the intended action.

The Board reserves the exclusive right to approve any and all memorials and tributes displayed on District property.

APPLICATION
FOR
RECOGNITION

An application for a memorial or tribute may be submitted to the Board for its consideration by a class, school, employee, parent, club or similar organization or may be initiated by the Board of Trustees.

Recognition by memorial or tribute shall be considered for persons who have made an outstanding contribution to the District as determined by the Board of Trustees, and for employees, students or graduates of Beeville ISD who exemplify the qualities of leadership, scholarship and personal achievement, and who serve, by their example, as role models for the youth of Beeville.

Tributes for a retired employee of the District shall be considered no sooner than one year after the date of the employee's retirement.

Persons being considered for a memorial shall have been deceased for six months prior to being considered for recognition.

Memorials and tributes shall be acquired and installed at no expense to the District.

Memorials and tributes at the A.C. Jones High School campus will be restricted to pavers, to be placed at the designated memorial site, subject to availability of space.

Memorials/tributes at other campuses within the District will be in a form approved by the campus and Board.

The text of any memorial or tribute shall be brief, containing the name of the individual honored together with limited biographical information, such as dates of employment or relationship with the District, and years of employment, dates of attendance or graduation (in the case of former students), or dates of birth and death.

FEES

The District may charge a reasonable fee for memorials and/or tributes to cover the cost of acquisition, installation, and maintenance. All memorials and tributes shall become property of the District, and may be used for any lawful purpose, consistent with this Policy.
