

Cordova School District Board of Education

I. New Business

6. Approval of the Amplify Tutoring Services Quote to be Paid for from the Comprehensive Literacy State Development (CLSD) Grant.

Information: The Comprehensive Literacy State Development, (CLSD), grant the district recently received is broken out into three age groups. The grant program requires that 15% of the grant be spent on children ages 0-5 years old, 40% be spent on students in grades K-5, and 40% be spent on student grades 6+. The remaining 5% goes towards state level resources including grant meetings and evaluation.

As part of the CLSD grant program the district will be utilizing Amplify tutoring services for all K-6th grade students in need of literacy interventions. This tutoring will be conducted in groups of 4 students working with an online tutor three times a week. In addition to the tutoring, a part time employee is being brought onboard to monitor and assist with the tutoring process. The K-5 age band will include online tutoring services totaling \$70,000 for the year. The 6th graders in the 6+ age band will receive \$35,000 in Amplify tutoring services. These tutoring services are approved and completely covered within the CLSD grant.

Motion: I move to approve the Amplify Tutoring Services Quote to be paid for from the Comprehensive Literacy State Development (CLSD) Grant, as presented in the Board packet.
