Principal's General Narrative:

The semester is progressing very well. I am confident that the amount of teaching and learning taking place is on pace to give us very good results by years end. Football, volleyball, and cross country seasons are over and basketball is underway. Both boys and girls look improved and promise to be very competitive.

The high school and junior high faculty, as always, would like to express our appreciation for the support and leadership from the school board, superintendent, and everyone in the central office. Thanks.
