To: School Board

The activities committee met today.

Recommendations:

1. It is assumed that the governor will issue some type of edict that will pause winter sports for two or three or four weeks, maybe longer.
2. If the governor does not intervene, the committee is recommending that the winter sports season be approved with one exception. (see #3)
3. The junior high students will be permitted to engage in **practice only** for the month of December. If sports are open (not closed by the governor) in January, the activities committee will re-evaluate allowing junior high kids to compete with other schools.
4. If or when the governor mandates a pause for winter sports, the activities committee will meet again prior to the sports season opening again to re-evaluate how the sports season will look like for C-I for the remainder of the winter season.
5. The committee is recommending that no gate fee be charged or collected for the duration of the winter sports season.
6. With regard to paying coaches, the activities committee is recommending that if coaches complete up to 50% of the regular season, that they receive 50% of the compensation for the season.
7. If coaches complete anything past 50% of the season, the coaches will be made whole and be compensated 100% of the coaching salary.

Jamie Skjeveland, Ed.D.

Superintendent

GO, C-I, GO!
