

Board meeting notes:

Celebrations:

1. First successful 5-6 grade level PBIS celebration- the students chose a tailgate theme with outdoor activities such as bag toss and other games, food and music.
2. 3rd grade students attended the Wright County Safety Day program in Clarion.
3. FAST testing completed and review of results started with our teachers and Building Leadership Team
4. Lego League Robotics practice has begun and we have two full teams ready to train and compete. Coached by Dani Schon.
5. Fire prevention week, rides were rained out but the Belmond FD came to our school and kids were excited to meet and greet the firefighters. Question for the day– how long do you think it takes our entire student body to exit the building after the alarm goes off?

Thanks:

1. To our art department, McKayla Hennigar and Patty Reed and her high school art students, in creating chalk art celebration National Principals Week. The kids are amazing.
2. First State Bank for bringing healthy snack bars and veggies and dip for teachers and paras.
3. Wright county public health department for providing flu shots for staff and students this past Friday.

Data: FAST data slideshow shared previously will be reviewed.
