PLANNED COURSE STATEMENT

Course #

Course Title: INTRODUCTION TO WOODS MANUFACTURING	Grade Level(s): 10-12
Length of Course: 2 Semester	Credit Area: CTE/Applied Fine Art
Prerequisite: None	Amount of Credit: 1.0 Credit
Adopted/Supplemental Materials: Provided by Instructor	
Dual Credit Articulation:	

COURSE DESCRIPTION:

This course is a competency based program designed to introduce students to basic woodworking and manufacturing concepts using wood and wood products. Course coverage will include shop math, hand tools, limited power tools, shop safety, knowledge of wood products and producing basic products.

COURSE GOALS:

Students will:

1. Explore the various areas of woods manufacturing.
2. Develop the basic skills necessary to safely operate a variety of hand and power tools.
3. Learn about and practice shop safety.
4. Develop a vocabulary and understanding of terms used in a wood shop.

ASSESSMENT STRATEGIES:

Oral and written responses, lab activities, quizzes, tests and completion of shop projects.

ACCOMMODATIONS AND MODIFICATIONS:

Accommodations and modifications will be available per the student's IEP.

CAREER RELATED LEARNING STANDARDS:

This introductory course is designed to expose students to principals of woodworking and woods manufacturing and to provide appropriate training to explore more advanced coursework and a pathway for a CTE certificate.
